LITTLE-FONTMILL,

In the County of DORSET.

SIR,

THE Honour I have had of your Acquaintance, encourages me to prefix your Name to this Performanee. I compoſed ſome of theſe Pſalm-Tunes and Anthems a few Years ago, not with an Intent to publiſh them, but for the Uſe of ſome Choirs I then taught. However, through the earneſt Solicitations of ſeveral Gentlemen and others, (who have favoured me with their Names, as Subſcribers to the Work,) I have lately corrected them, and, with ſome Additions, they now appear in Publick.

YOUR conſtant Approbation of Divine Muſick is evident, not only by the Encouragement you give thoſe who delight in it, but by your own frequent Practice of it; and I have often-times (with a great deal of Satisfaction) heard you perform a Part in Verſe-Anthems.

MAY Happineſs and Length of Days attend your Honour, and when Divine Providence ſhall put an End to that Life it gave you, may Choirs of Angels conduct you to the happy Regions above, there to ſound forth the Praiſes of the Incomprehenſible Trinity to all Eternity. I am,

Honoured SIR,

Your moſt Sincere, Affectionate,

Humble Servant,

WILLIAM KNAPP.

PREFACE

TO THE

SECOND EDITION.

THE great Succeſs my firſt Edition has met with, encourages me to enlarge it, by an additional Number of new Anthems and Pſalm-Tunes of my own; together with an excellent Anthem, in Six Parts, by a very eminent Maſter; and an Introduction to Pſalmody, after a plain and familiar Manner.

CHURCH-MUSICK was never more in Vogue in this Nation than at preſent; and it is a ſingular Satisfaction to me, to hear not only my own Compoſitions, but thoſe of other Maſters, performed in many of our Pariſh-Churches, with good Voices, and tolerable Skill; where, for a few Years paſt, they ſcarce knew any Thing of the Matter.

I HOPE the Reader will excuſe me, if I do not give him or myſelf the Trouble of informing him of the Antiquity of Muſick; of its Divine and Civil Uſes, &c. ſince there has been of late ſuch a Multitude of Authors that have wrote upon thoſe Subjects, that I could only repeat their Sentiments in a different Way of Expreſſion.

IF by what I here offer to the Publick, I find I ſhall be inſtrumental in propagating the Knowledge of this excellent ART, it will give me a very ſenſible Pleaſure; and with a ſecret Complacency of Mind, I ſhall reflect on what I have done, to advance the Praiſe and Glory of that GOD, who is the Author of Harmony.

I HOPE therefore this Second Edition will be as candidly received as the Firſt, from

READER,

Your Moſt Humble Servant,

WILLIAM KNAPP.

TO

Mr. KNAPP,

On the PUBLICATION of his

Book of PSALMODY.

FOR ever pleas'd in Publick to commend,
And ſhew the World the Merit of a Friend,
The gen'rous Muſe, from vile Detraction free,
Inſcribes this Lay with Gratitude to thee.
Thy tuneful Voice each liſt'ning Youth inſpires,
And with Devotion fills our hallow'd Quires:
Thy various Notes, in juſt Proportion bound,
Improve the native Harmony of Sound.
Soon as I trembling hear thy moving Tongue,
I ſwell with Rapture at the ſacred Song:
In vain the Nymph diſplays her blooming Charms,
In vain ſhe tempts me to her circling Arms;
My conſcious Soul with Scorn rejects her Love,
And tow'ring riſes to the Realms above.
Long as the Sun's enliv'ning Glories ſhine,
So long ſhall laſt this deathleſs Work of thine;
And future Worlds with one Conſent agree,
Whene'er they ſing of GOD, to mention thee.

RULES

To be Obſerved in

SINGING,

How to expreſs the SYLLABLES of thoſe WORDS, which end in *bi*, *ci*, *di*, *ni*, *pi*, *ri*, *ry*, *ſi*, *ſhi*, *ti*, *ty*.

SOME of the Words which end in *ty* and *ry*, are Almighty, Glory, Majeſty, Trinity, Victory, *&c.* Theſe following have their Syllables above-mentioned in the Middle, as well as at the End of the Words, ſuch as Babilon, Benignity, Champion, Divide, or Divided, (this Word hath the Syllables in the Beginning) Felicity, Inventions, Miſery, Omnipotent, Poſterity, Shiver, Supplications, Unicorns, *&c.*

Twelve Examples may ſerve for all other Words of the ſame Kind. Example; Felicity, which, though the Letters are well expreſs'd in reading, yet they ſeem to alter when they are ſung. For Inſtance, when the Word or Syllables are drawn out long, they are expreſs'd, *lie*, *cie*, *trie*, which ſhould be, if *bi* as *bee*, *ci* and *cy* as *cee*, or *ſee*, *di* as *dee*, *li* as *lee*, *ni* as *nee*, *pi* as *pee*, *ri* as *ree*, *ſi* as *ſee*, *ſhi* as *ſhee*, *ti* and *ty* as *tee*.

Theſe being well obſerv'd and practis'd, will be of great Uſe to thoſe that delight in Singing.

A Short Introduction to Psalmody: By Way of Dialogue.

Chap. 1

The Introduction, with an Account of the Gamut or Scale of Musick.

Theophilus. *Good Morrow* Philemon.

Philemon. *Good Morrow good* Theophilus. *pray what makes you so early abroad this Morn?*

Theo: *I suppose the same Reason which gives you the Opportunity of asking a Question (viz) the lovely Season and Weather which seem united to invite us hither.*

Phil: *You are intirely right: who can forbear frequenting these pleasant Fields both Morn and Even, which are now so sweetly adorn'd with all the blooming Beauties of the Youthfull Spring?*

Theo: *'Tis true, besides the Morning is the fittest Time for Study which is another Reason of my being here so early: hoping to have had some Moments to my self. for to tell you the Truth I have had a new Lesson in Psalmody lately given me, which I had a Mind to peruse this Morning.*

Phil: *Since you have nam'd Psalmody, me-thinks I am sorry that my early appearance has disapointed you of your desir'd Solitude, because it gives me the wish'd occasion of my acquainting you with the knowledge of that delightfull Art: and wish you cou'd recomend me to some Person for my Instruction therein*

Theo: *Your desire is very commendable, since ye knowledge of Musick enables us to sing our Makers praises with Understanding, and if you'l accept of so small a proficient as my self for your Instructor, I shall be ready to serve you.*

Phil. *I thank you for your kind offer, and will begin when you please Sr.*

Theo: *Then you must first learn your Gamut which is a Scale of Musick so call'd from the first Note in it. as you see here at the bottom of it.*

Phil: *Pray after what Manner must this be learnt.*

Theo: *You may observe three things in the Gamut. first the Names of the Notes, Secondly the three several Cliffs. and thirdly the Syllables belonging to the Names of ye Notes which are made use of in what we call Solfaying. As for Instance Gamut is the Name of a Note, but when you come to sing it you must name it Sol. as you may observe Sol to be plac'd on the same line which is drawn from the Word Gamut. In like Manner Alamire is called la. Bfabemi mi. and so on. In short the best way for you to remember how to call 'em is this. the Names of all the Notes beginning with one of the seven first Letters of the Alphabet as A. B. C. D. E. F. & G. you may observe that A and E are call'd la. B is mi; C & F. fa. D & G. sol. all which you must get without Book both up & down beginning with Gamut and ending at G sol reut in alt. then repeat back again & end with Gamut. taking care to remember what Monosyllable belongs to each proper Name of your Notes. as for Instance. Gamut is call'd Sol. Are la. Bmi mi. and so on as before hinted.*

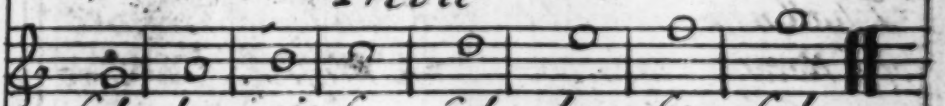
Phil: *Of what Use are the Cliffs*

Theo They are the Keys or Inlets to the Knowledge of the Notes, for should you place a Note upon any part of five lines and put no Cliff at the beginning, you cannot call it any thing. But with a Cliff plac'd there you may easily find out any Note, because reckoning up or down from the Cliff you may take in the Extent of any Lesson, for Example.

Place ye Treble Cliff upon ye second line which is Gsolreut, and all other Notes ascending or descending must be call'd by the same Name as they stand in the Gamut.

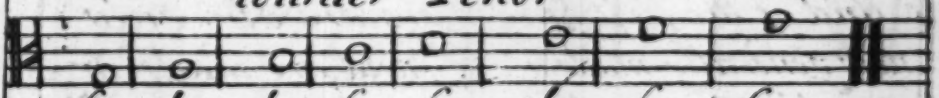
For example  here are three Notes the first up- sol, la, mi -on the same line as the Cliff which is G. and call'd sol, the second in the Space above it which is A. and call'd la the third upon the middle line which is B. and call'd mi, but for your better understanding I will set down eight Notes in the three several Cliffs.

Treble



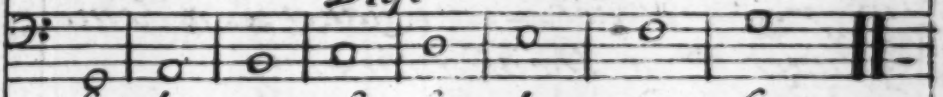
sol, la, mi, fa, sol, la, fa, sol.

Counter Tenor



s. l. m. f. s. l. f. s

Bass



s. l. m. f. s. l. f. s.

compare these Notes with ye Scale, and you'l easily apprehend what I have said as to the right naming of your Notes. & ye Cliff you intend to practice in, you must be carefull to know readily the Names of all your Lines and Spaces which ye Cliff lets you into; also the proper Monosyllable belonging to it, which is always us'd in Solfaying. You see the Lines of this Scale are divided into three Parts by three Semicircles; each incloses five, which may serve to represent a Stave or five Lines in any Musick Book, the upper five have ye Cliff upon ye Second Line. the next five have ye Cliff upon the middle Line. and the lowest five have the Cliff upon the fourth Line. and thus much for the Gamut.

Chap 2d

Notes and Characters us'd in Musick

I shall now proceed to give you some Account of ye Notes & Characters us'd in Musick; as well to express Sounds, as to denote Silence.

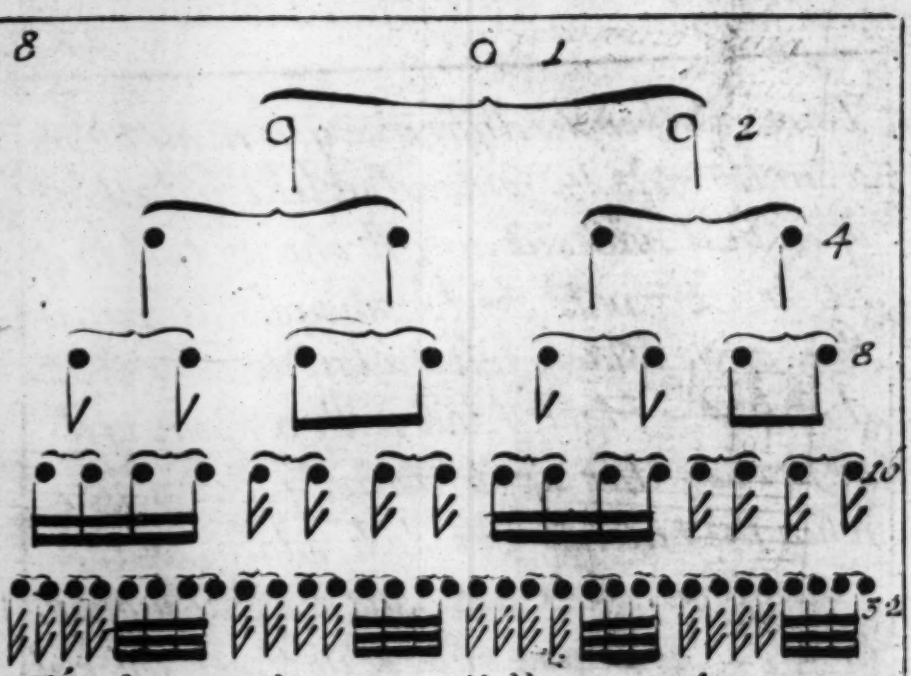
And of the first kind there are Six only now generally made use of, and are made after this Manner. Viz. a Semibreve 𝅝. a Minim 𝅗𝅥. a Crotchet ♩. a Quaver ♪. a Semiquaver 𝅘𝅥𝅯. a Demiquaver 𝅘𝅥𝅰

To remember the difference you may observe a Semibreve to be somewhat like ỹ Letter O open and without any stroke or tail to it either upwards or downward, a Minim is that open Mark with a tail to it, a Crotchet has a black head with a plain tail or stroke either up or down, a quaver is, when the tail has one dash added to it, a Semiquaver has two, and a Demiquaver three, as you may observe in their several figures expresst before.

Phil: I think you have explain'd this very well: but how shall I know the length of each Note?

Theo: A Semibreve is as long in singing as while you can tell four strokes of a large pendulum Clock; a Minim half so long; a Crotchet a quarter: a quaver $\frac{1}{8}$. a Semiquaver $\frac{1}{16}$. a Demiquaver $\frac{1}{32}$. but for a farther Illustration I shall give you a Scheme of the six Notes, by which you may much plainer distinguish what proportion they bear to each other.

Here follows the Scheme.



These are what we call Notes, and you may observe by this Scale, that one Semibreve includes or is as long as two Minims, a Minim as two Crotchets; a Crotchet as two Quavers; a Quaver as two Semiquavers; & a Semiquaver, as two Demiquavers. for a farther Illustration, Suppose a Semibreve divided into two equal Parts, they are Minims, if into four they are Crotchets; and so on to thirty two Parts which are Demiquavers, as you see above.

Phil: *I think you have explain'd this enough, but pray what are the other Marks you mention.*

Theo: *The next in Order, because relating to Sound as well as ye Notes, are flats and sharps, a flat is made thus ♭. a sharp thus ♯. ye use of ye flat is to*

to lower the Sound of any Note before which it is plac'd half a note or tone: the Sharp or the contrary raises it so much which I shall make plainer to you by and by

The next Characters I shall speak of are Rests or marks for silence plac'd on any part of the five lines and distinguish'd thus

Phil. Pray why do you place the six Notes under them

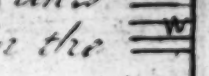
Theo. To explain em, for Instance the Semibreve Rest is a thick stroke (as you see) drawn from any line down half way to the next; the Minim Rest goes up half way, the Crotchet like a Tenter hook, turns off to the right hand, the Quaver to the left the Semiquaver with a double stroke to the left, the Demiquaver a treble stroke to the left, the use of which are that where ever you meet with em, you are to rest, or keep silent, so long as you would be performing those notes whose absence they supply when a stroke is drawn from one line to the next you must not think it a Semibreve & Minim rest joyn'd, but two Semibreves and when drawn to another line tis four Observe the Semibreve rest is always a whole bar in any sort of Time what ever which you'l the better understand.

when I come to speak of Time but here's an example of what's now mentioned in the first division is a Semibreve rest which stands for a Semibreve or one bar the 2d for two: the 3d for four 4th for eight and the last for sixteen bars.

Phil. This is very plain but what mean you by a bar.

Theo. Tis a strait stroke drawn across the five lines and divides the Notes into equal quantities in order to the keeping or beating of Time. the next is a Tye. which is a Bow'd line drawn over 2 or more Notes in these but one Syllible to sing to em

for example the word Sing has four Notes tyd and the Syllable's two. The last Caracter I shall now mention is a Direct made at the end of the 5 lines to shew you that the first Note in the next five is upon that line or space where the Direct is plac'd.



I shall in the next place attempt some thing concerning the Tone or Sound of your Notes and the farther use of flats and Sharps as I before hinted

Phil. I thank you Sir

Concerning the Tone or Sound of Notes

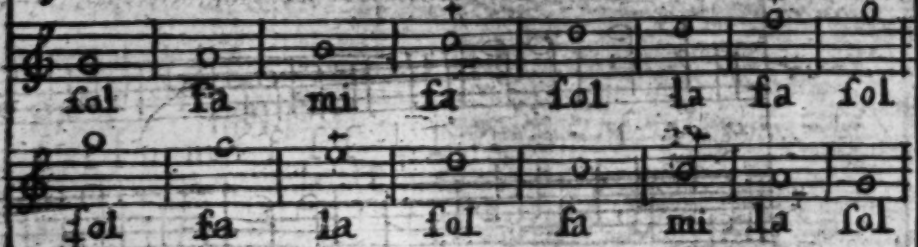
Having in the two preceeding Chapters given You an account of the Gamut the six kinds of Notes & other Characters thereunto belonging I shall now proceed to some directions relating to the Tone or Sound of the Notes which when plac'd upon the five lines as they ascend or descend that is from line to space & from space to line are accounted either whole Tones or Semi-tones that is whole Notes or half Notes & are distinguish'd one from another by the two Columes of Names in the Gamut for Instance from Gamut *to* Are *is a whole Tone from* Are *to* Bmi *another from* Bmi *to* Cfaut *but half a Tone from* Cfaut *to* Dsolre *a whole Tone from* Dsolre *to* Elami *the same from* Elami *to* Ffaut *but half a Tone from* Ffaut *to* Gsolreut *a whole Tone & so up to the top of the Gamut & if it was possible for a gradual progression to take in a Thousand Notes more they must all ascend in the same proportion of Sound as the first eight Notes do which I have above mention'd*

Phil. *I understand you S^r^ but pray wch is my best Method readily to remember without Book the whole Tones from the half Tones*

Theo *Only by observing that from* B *to* C *and from* E *to* F *ascending and from* F *to* E *& from* C *to* B *descending are the half Tones all the rest are whole Tones And in Solfaying from* mi *to* fa *and from* la *to* fa *are half Tones ascending & from* fa *to* la *and from* fa *to* mi *are the half Tones descending*

Phil *Pray give me an Example*

Theo *I shall by setting down eight Notes in the* G *Cliff marking with a Cross the Note that riseth or falleth half a Tone*



Here you may observe that fa *or* C sol fa *riseth half a Tone above* mi *or* B fa be mi *and* fa *or* F fa ut *riseth half a Tone above* la *or* E la *then descending it must be but half a Note from* fa *to* la *or* mi *as I before hinted*

Phil *But how shall I distinguish em*

Theo *Observe that all whole Tones have a cheerful Sound & all half Tones a Melancholly one either rising or falling and I know of no better way to learn em than by applying to some Skilful Person either to Sing the eight Notes often over to*

you or play it on some Instrument till such time as you can retain the Sound your self, but to give you yet a further Illustration we'll suppose a whole Tone to be inches & half Tones half inches w.ch is a Mathematical demonstration upon any String'd Instrument for Instance take a Violin and draw the Bow over any open String and observe the sound it gives, then place your fore finger upon that String about an inch from the top of the Neck & draw the Bow again you'll find it a whole Tone, then put your middle finger close to the other w.ch is about half an inch and you'll find that will produce but an half Tone.

Phil. I understand you but pray S.r explain the use of Flats and Sharps to me.

Theo. I promis'd I would and as I told you they rais'd or sunk any Note they are put before half a Note or Tone, I'll make it plain by a short Instance or two as this  those Notes are a full Tone from each other but place a Flat before **mi** and it's but half a Tone from **la** to **mi** as thus  in like manner I will put down two more notes thus to shew from **mi** to **fa** is but half a Tone but with a Sharp thus before it  makes it a whole Tone.

If a Flat or Sharp is plac'd at ye beginning of the five lines it affects every Note upon that line or Space for Instance thus  a Flat plac'd upon B shews all the Note's upon that line must be sung Flat unless contradicted by a Sharp the like rule must be observ'd in Sharps

There is one other Character call'd a Natural made thus ♮ the quality of it is to reduce any Note made flat or sharp by the governing flats or Sharps plac'd at the beginning of the lines to it's primitive Sound as it stands in ye Gamut as for Instance a flat plac'd in B atthe beginning of the line makes all Notes in that line flat unless the Composer has a mind to have some one or more of them sharp and then this Character is put before such Notes instead of a Sharp

And although this Character is mightily us'd in our Modern Musick especialy ye Italian yet I dont see there is any great occasion for it, because flats and Sharps produce the very same effect; and as it occasions a Note sometimes to be sung flat as well as sharp it often serves rather to puzzle than help a Young proficient in his performance.

Concerning the length of Notes

Having explained the six several kinds of Notes now made use of & given you a scale as they lessen in proportion till a Semibreve becomes divided into 32 demiquavers I shall add one familiar Instance for your further Instruction which I hope will give you a clear & just Idea of the proportion of ery Note with regard to each other. Suppose then an inch was the length of a Semibreve divide it into two equal parts they become Minims the next division makes em Crotchets the next Quavers then Semiquavers & lastly Demiquavers so that a Minim may be accounted ½ an inch a Crotchet a 4th a Quaver an 8th a Semiquavier a 16th and a demiquaver a 32d part of an inch or Semibreve

Phil. *This is very plain but I have seen now & then a Character in Musick made thus* *pray what is it?*

Theo. *Tis a Breve which is as long as two Semibreves & is sometimes us'd in Church Musick & often for the Close or last Note on't*

Phill. *Pray what means a little dot I see plac'd by a note sometimes.*

Theo. *Tis a point of addition & makes the Note half as much more and is always put on the right side thus* 
and so after any other Note as the Composer has occasion for it. but to explain it more particularly I shall give a short Scheme after the same manner as that you have already had which take as follows

Observe that as one Semibreve is as long as 2 Minims a prick'd Semibreve is as long as three. the same Rule of proportion holds with respect to any other Note.

Phil: I understand you S^r. but in this as well as the other Scheme I observe some of the Notes have either 1, 2 or 3 strokes made thro the tails tying 2 or more together, pray what means that.

Theo. Tis no more than this, as single Quavers. Semiquavers, & Demiquavers, distinguish'd from each other by the tail being turn'd up or down with either 1 2 or 3 dashes added, tis usual that when 2 or more of these kind of Notes are to be sung to one Syllable, they are not made single, but dash'd thro the tails all at once as occasion requires. for Instance suppose 2 Semiquavers and 1 Quaver to be sung to one Syllable you should not prick them down thus  but thus &c in Lesson.

that have many of em, the strokes thro' y^e^ tails are a help to y^e^ sight & you may more easily discover how many there are of each kind in a bar than if they were in Single Notes for Example

Single Notes — the same Notes ty'd

The single Notes are not so distinct to ye Eye as them that are ty'd 4 & 4 together, for which reason this kind of tying is of great use to facilitate ye performance of any Lesson wherein they are made use of especialy in quick Vocal & Instrumental Musick. I have been ye more particular because I wou'd not let any thing escape you that is necessary to be known towards your attaining to ye performance of a plain Hymn or a Psalm Tune I shall only add some Instructions for keeping or beating of time, then leave you to the practice of a few short Lessons as preliminaries to the performance of ye several Psalms and Anthems I shall leave with you for your farther pradice and improvement.

I thank you S.^r^ most heartily.

Chap 5th

Of beating or keeping of Time

Theo. Time is a thing so necessary to be observ'd in a Musical Performance, that without an exact Agreement among the several Performers, 'tis impossible to do it as it ought to be done.

Phil. I believe what you say, but pray explain it to me a little.

Theo. I will. Time is a certain and positive Way of measuring ye Notes & Rests made use of in a Piece of Musick whether Vocal or Instrumental, & if rightly observed occasions the Performance to be exact, and all ye Parts whether two or more, will fall in with each other according to the Intention of ye Composer.

There are several kinds of Time, invented for the sake of Variety and may all properly be reduc'd to two Sorts that is Common and Tripple Time, which is measur'd either by an even or an odd Quantity, as four or three, but before I go on, I beg of you to remember I mention'd a Bar, which is a plain Stroke drawn cross the five Lines, & serves to make an equal Division of a Song or Lesson as to the Notes or Rests in it, not for Number but Quantity. So that if a Lesson is compos'd in Common Time, the Bar is put between every Semibreve, or so many lesser Notes as make one throughout

the whole Lesson

Of Common Time there are three kinds which are mark'd thus C. ¢. ϕ or 2. the first denotes a very slow Movement. the second a middling Movement & the two last a quick Movement. Now one of these is always plac'd at the Beginning of a Lesson immediately before or after the Cliff. which governs ye whole Song. if not contradicted by any other Sign. & ye Way of beating this Time is by putting ye Hand down at the Beginning of every Bar. and taking it up when the Bar is half gone. for Instance. one Semibreve fills a Bar. and if your Lesson consists of Semibreves. you must strike your Hand down at ye Beginning of that Note & take it up at the last half. If Minims one down and one up. If Crotchets 2 down & 2 up. the like equal Division must be made with Regard to all lesser Notes.

You may practice beating of Time even without singing. by only repeating 1. 2. 3. 4. as leisurely as ye Click or Sound of ye Pendulum of a large Clock moves. striking your Hand down at 1 and taking it up at 3. and four of these Strokes is ye Length of a Semibreve. which Note (or that Quantity in lesser Notes or Rests) makes a Bar in Common Time.

Phil. Pray give me an Example of this.

Theo. Here is one with ye second Mark or Mood for common Time at the Beginning, And ye Letters d and u plac'd over ye proper Notes which should be down or up.

d u d u d u d u d u d u.

In the first Bar is a Semibreve sung half down and half up: in ye second two Minims one down & one up. in ye third is four Crotchets, 2 down, 2 up, in ye fourth 8 Quavers, 4 down 4 up, and every Bar is of an equal length in performing but to make it plainer, I will give you a Lesson with prick'd Notes and Rests.

d u d u d u. d u d u d u.

In ye first Bar is a prick'd Minim, & you must observe to take up your hand at ye prick, which is ye last third part of that Note: as likewise in ye fourth & fifth Bars there is a Crotchet Rest which you must take your Hand up at telling one softly to your self: for you are to observe that it helps to make up ye several Notes in those Bars the length of a Semibreve

Phil. I apprehend you Sr. and now if you please, I wou'd beg ye favour of you to explain to me what you call Tripple Time.

Theo. I will.

Of Tripple time there are 3 kinds chiefly made use of in Vocal Musick which are distinguish'd by having either 3 Minims 3 Crotchets or 3 quavers in each bar. 2 thirds of each bar with ye hand down & one up, & are known by their several Signs or Moods mark'd thus $\frac{3}{2}$. $\frac{3}{4}$. $\frac{3}{8}$. which are likewise put at ye beginning of ye first five lines as ye Signs for Common time are, of which I will give you three Examples. the first in Minims

thus 
2d Crotchets

3d quavers

this last being a very brisk movement is seldom usd in Church Musick.

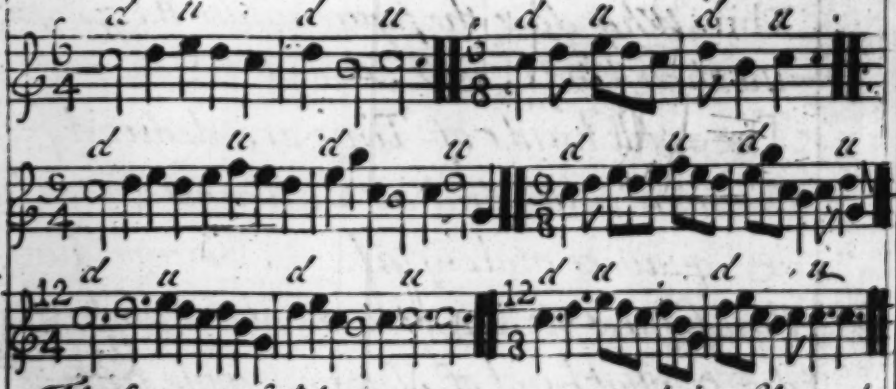
Phil. Why does the figure under the 3 differ in the three kinds. as 2. 4. and 8?

Theo. All kinds of Time are deduc'd from Common time, and as 2 minims 4 Crotchets or 8 quavers make up a bar in Common time so these figures viz 2. 4. or 8 are plac'd under ye 3 to denote what kind of Notes ye tripple time of any Lesson is Compos'd of, as thus, if I see the Mood call'd three to Two mark'd thus $\frac{3}{2}$ then

the 2 having regard to 2 Minims which make up a Bar in common Time. I know that that Tripple Time must be in Minims, & as the 4 has Regard to Crotchets, & 8 to Quavers, & same Rule is to be observ'd as is given for Minims. If I see a Lesson with this Mood $\frac{3}{4}$ and there are 3 Minims or 3 Quavers in a Bar, I know the Mood is not right then, be-cause the 4 underneath has Respect to Crotchets and no other Notes. 4 Crotchets making a Bar as before hinted.

Phil: I understand you, but what other sorts of Time are there?

Theo: There is a double Tripple, com-pos'd of either Crotchets or Quavers 6 in a Bar, 3 with the Hand down and 3 up, & mark'd thus. Crotchets $\frac{6}{4}$. Quavers $\frac{6}{8}$. there's two other kinds of 9 or 12 Crotchets or Quavers in a Bar mark'd thus $\frac{9}{4}$. $\frac{9}{8}$ &, $\frac{12}{4}$. $\frac{12}{8}$. the first measur'd by 6 down & 3 up. the second 6 down and 6 up as will appear by the Examples.



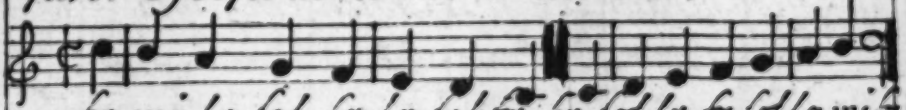
These are seldom or never us'd in Church Musick, so that if you practice only the common Time, and the two first Sorts of Triple, 'tis sufficient for your present Purpose.

I desire you to observe further that whereas in Psalm Tunes & Hymns you'l often meet with more than one Semibreve in a Bar; & in some Church-Musick (wherein are seldom any shorter Notes than Crotchets us'd) no Bar at all, altho' y Musick is compos'd in Common Time, in both which cases you must be sure to beat Time to every Semibreve as if it was bar'd all the Way. Sometimes you'l see an Odd Minim, Crotchet, Quaver or 2 Quavers at the Beginning of a Piece whether in Common or Tripple Time immediately before the first Bar, such odd Notes must be perform'd with the Hand up. Examples of which you'l often meet with in y Lessons and Anthems following.

Chap 6th

Some further Instructions with an Account of the several Keys us'd in Musick.

I wou'd now observe to you that a ring of 8 Bells if rightly in Tune are properly expressed by y eight following Notes beginning at C-sol-fa: or C-sol-fa-ut (which is all one)

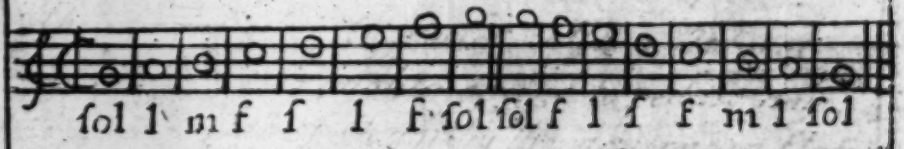


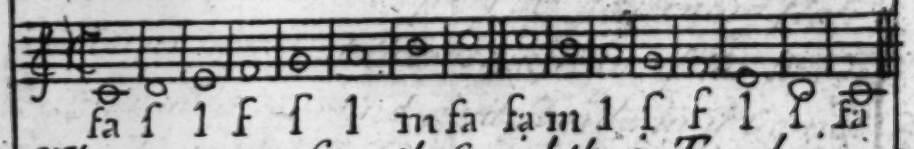
fa, mi, la, sol, fa, la, sol, fa, fa, sol, la, fa sol la mi fa

Here you have an odd Note both at the Beginning and in the Middle which must be kept Time to as if there was no double Bar at all. The last Note before the

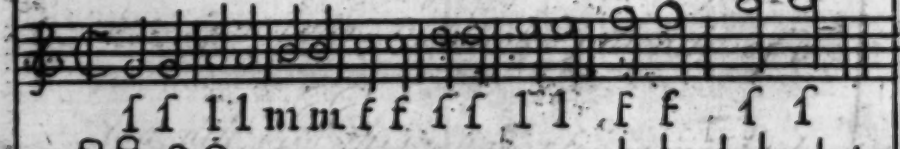
the double bar and the odd one following being both with the hand up: which Instance will serve to direct you in keeping Time to all the odd Notes that you may ever meet with.

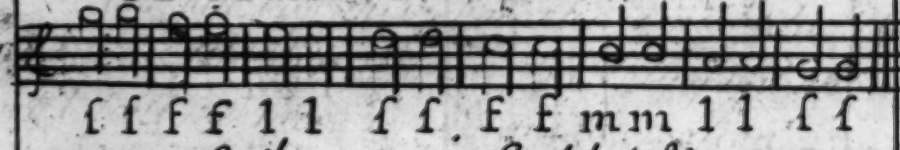
I shall now set you 8 Notes two several ways: the first as I set em before, & ye second like 8 Bells. both which ways are taught by Musicians.





When you can sing these rightly in Time being all in Semibreves, you may make a small variation for the sake of improving in keeping of Time, by dividing ye Semibreves into Minims, thus



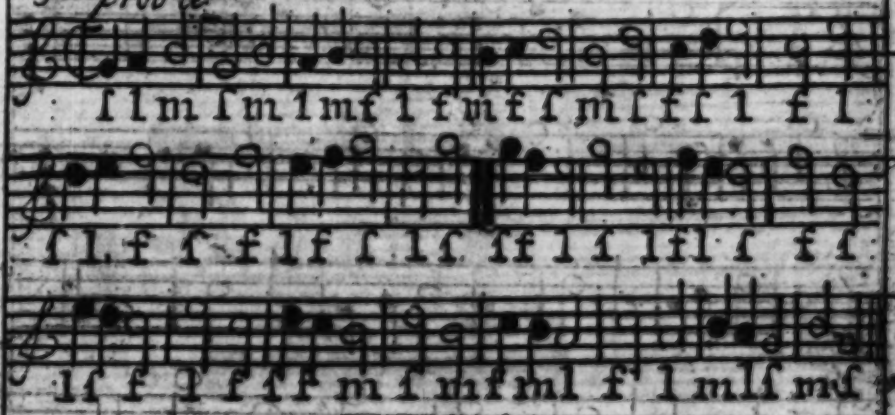


you may further vary in Crotchets & quavers by singing two down & two up of ye first and 4 down & 4 up of the second all in one Tone, which you may prick down your self

Phil I think I can and now I wou'd be glad of another Lesson.

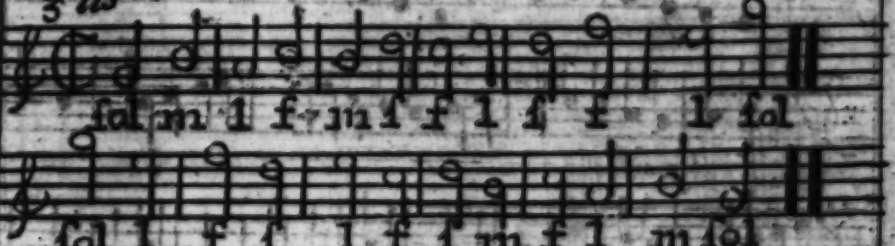
Theo: Here is one ascending and descending gradually three Notes at a time which is call'd proving of Thirds as thus

3ds prov'd.



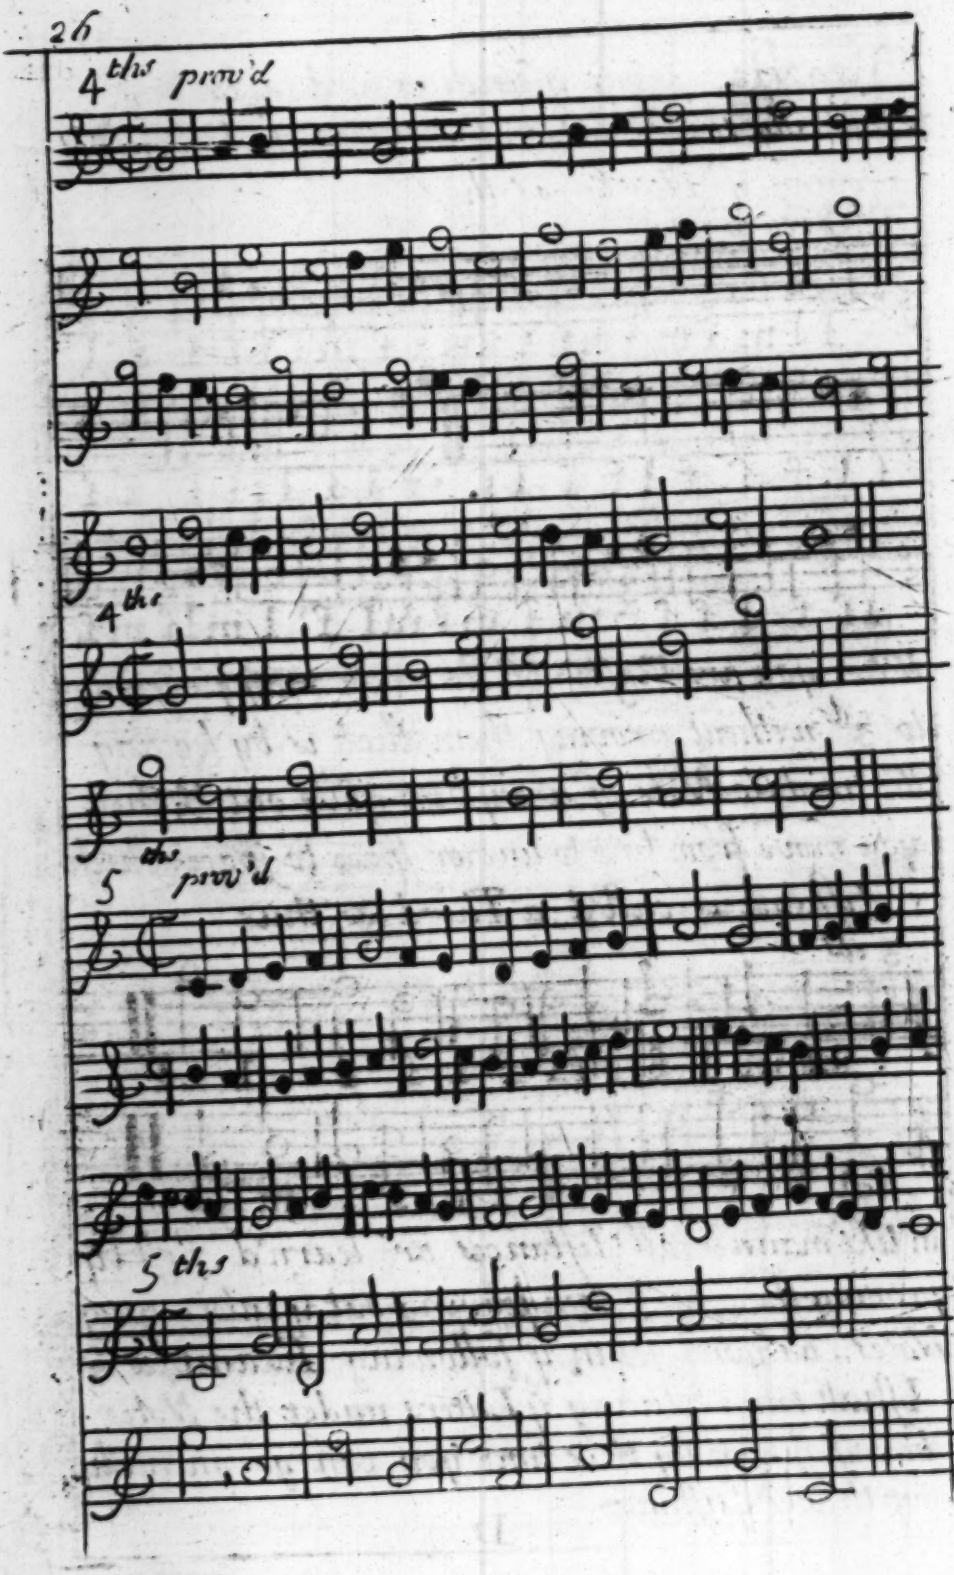
When you are Master of this you may proceed to 3ds without proving them: that is by leaving the middle Note of every bar quite out & then you move from line to line, or space to space, which distance is call'd a Third as thus

3ds

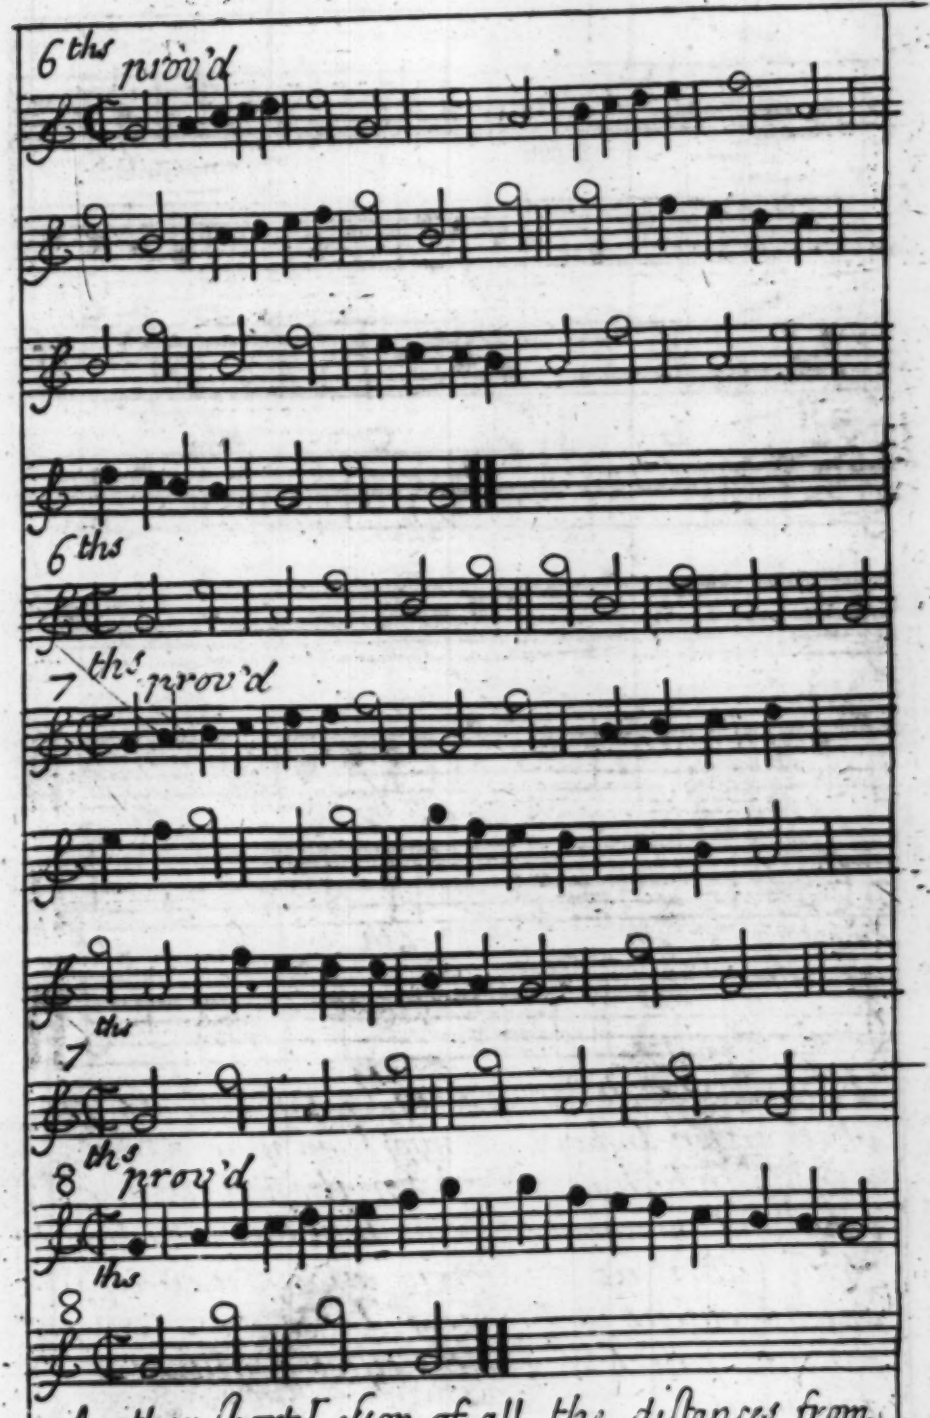


In like manner all distances are learn'd, first by proving them up & then leaving out ye intervening Notes, as you'l see in ye following Examples.

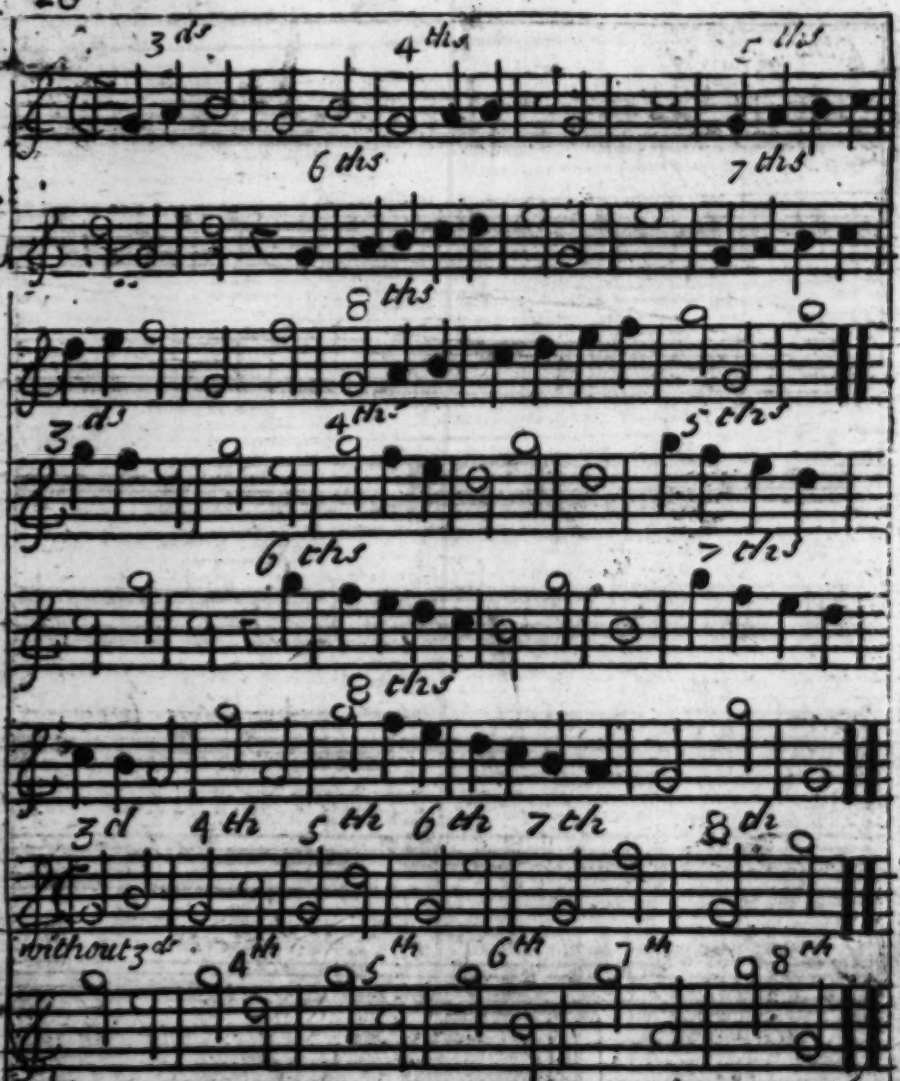
I shall leave placing ye Letters under the Notes because I hope by this time you can go on without that Assistance



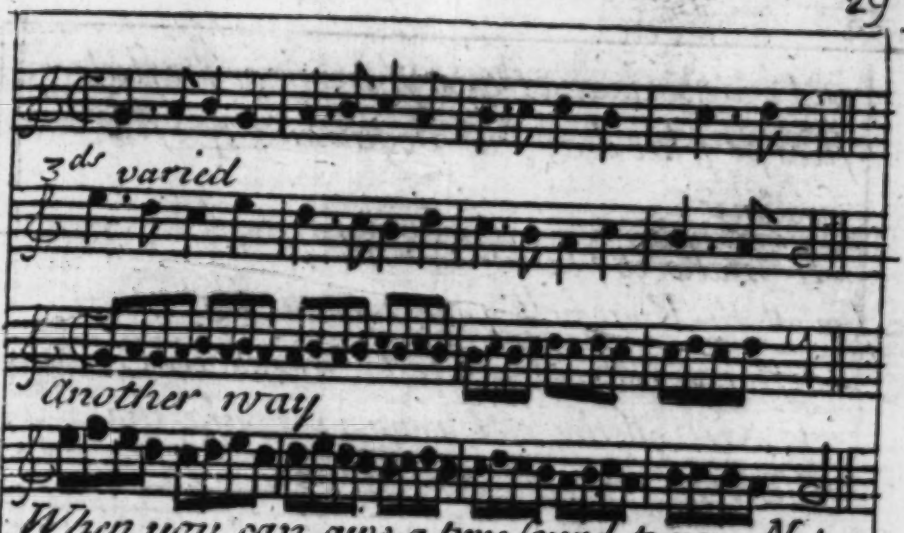
4ths provid
4ths
5ths provid
5ths



Another short Lesson of all the distances from 3ds to 8ths provid as follows



These several distances may be varied as you please. as for Instance you may begin your 3ds or 4ths in Solfa (which is a line below the five) as ye 5ths begin and carry any of em to what extent you please either up or down and you may for improvement in keeping Time, turn any of em into prick'd Notes after y manner following



When you can give a true sound to your Notes that is sing ye proper whole or half Tone that belongs to 'em you'l not then be confin'd to Solfaying, but may use any other Syllables as persons do who dont understand Musick, when they hum over any Tune, or Song without the proper words for the use of Solfaying is only to assist learners in giving the true Sound to each Note as before hinted.

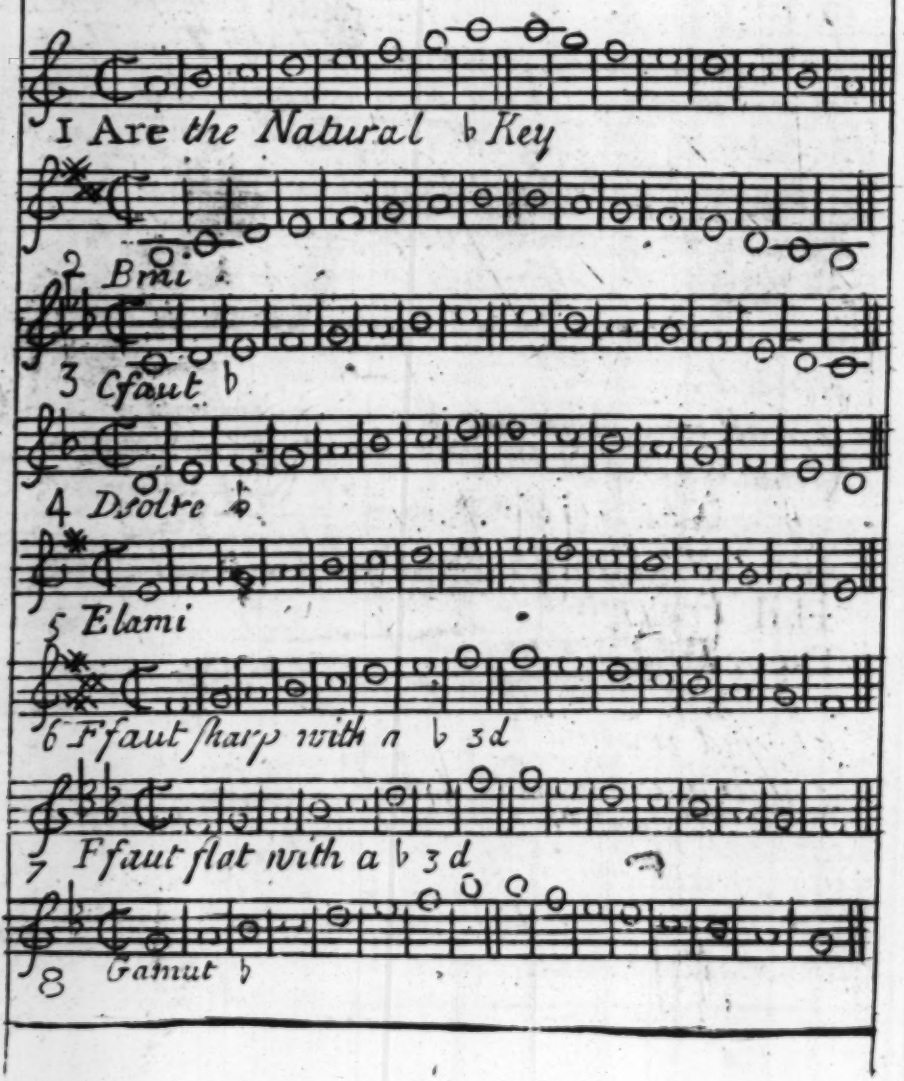
I shall now shew you the several Keys generally made use of in Musick which tho numerous may be reduc'd to two only Flat and Sharp viz. Are and Cfaut the two Natural Keys.

Phil Pray what do you mean by a Key

Theo. Tis a certain Sound or Note which the tendency of ye Air of any piece of Musick inclines it to end in. and takes its Name from one of ye first Seven Notes in the Gamut, for Instance, suppose ye last Note in ye Psalm tune is in Gamut or Gsolreut in ye Base or Treble then we say that Tune is in Gamut; if it ends in Are or Alamire then tis in Are & so of all ye rest.

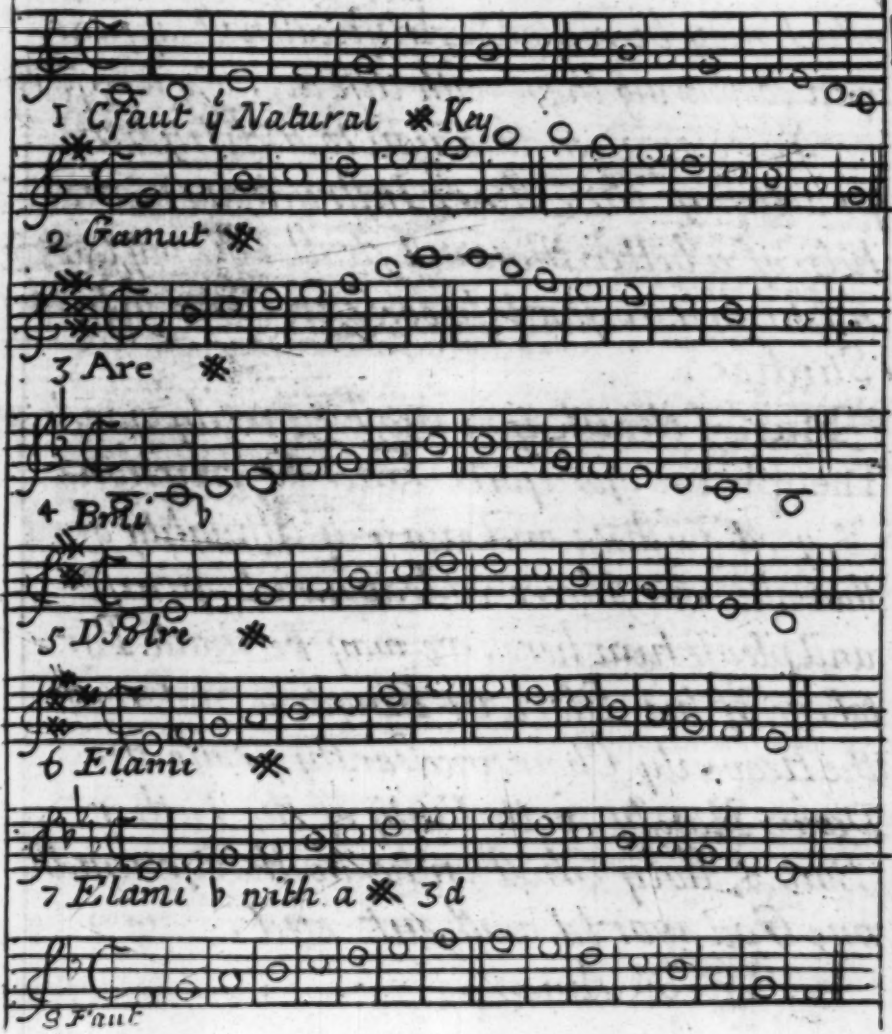
and is denominated Flat or sharp from the flats or sharps plac'd at the beginning of the five lines.

To make it plainer I will set you 8 Notes in all the Keys: first going thro the flat Keys. which are all reduceable to the Natural Key. viz: Are: all the rest being made like that by the help of flats or sharps.



These are the flat Keys generally made use of & the effect that Musick in any of these Keys has upon our passions is to produce in us a Serious grave or Melancholly disposition of Mind.

The sharp Keys have the contrary Effect & incites us to be Gay or Chearfull. and of a Lively disposition. which are all reduceable to the Natural Key. viz: C faut.



Now in these several Keys you are to observe that you must rise or fall a whole Tone or Note, or half a Note just as you do in the two Natural Keys.

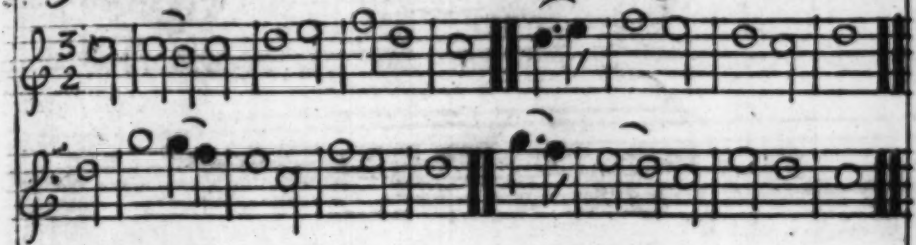
I will now set you two Psalm Tunes, one in each Natural Key, which when you have pretty well master'd ye other Keys which may be reckon'd Artificial will appear upon comparing them with these two easy to perform.

So recommending you to a diligent practice of these short Instructions & the help of a better Master I shall take my leave wishing you good success in your future Studies.

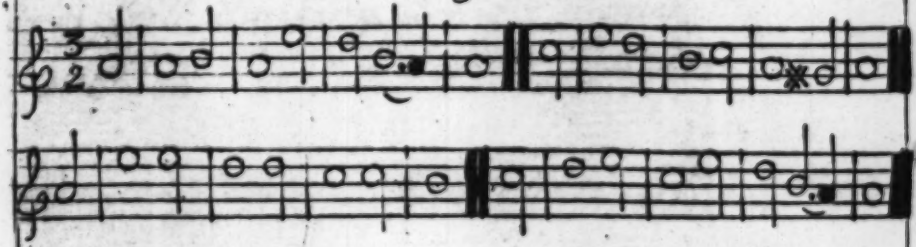
Phil: I thank you most heartily good Theophilus, for your kind Instructions & good wishes; and may ye Almighty grant that after our sincere endeavours to praise and please him here, we may be made Partakers of his Glorious Kingdom and with the Heavenly Choir, incessantly praise the Divine Majesty, in the Unity of the Father Son & Holy Ghost, who liveth & reigneth one God world without end.

Theo: Amen.

The Bridport Psalm Tune by Way of Lesson in the natural Sharp Key viz Cfaut.



The Weymouth Tune by Way of Lesson in the natural Flat Key viz A-re



By observing the 8 Notes in the 16 Keys before mention'd you may transpose any Tune into one of the Natural Keys, or from any one Key to another. Observing always to put in all accidental Flats or Sharps that are placed before any particular Note over and above what's placed at the Beginning of the five Lines according to what any Key requires. For Instance. If you would transpose the Weymouth Tune from A-re (which it now is in) to Cfaut flat. then You must place three Flats at the Beginning of the five Lines, (viz) in A. B. and E. and the first Note in Cfolfa. by which the following Notes will be governed and the accidental Sharp which is now in G must be made upon B. because the Note following (being transpos'd) will then be in B. The like Rule will serve for Flats.

The Shake upon the half Note.

I have made Use of the Word Praise for the Trill, thinking it more proper than calling the Notes by their Names.

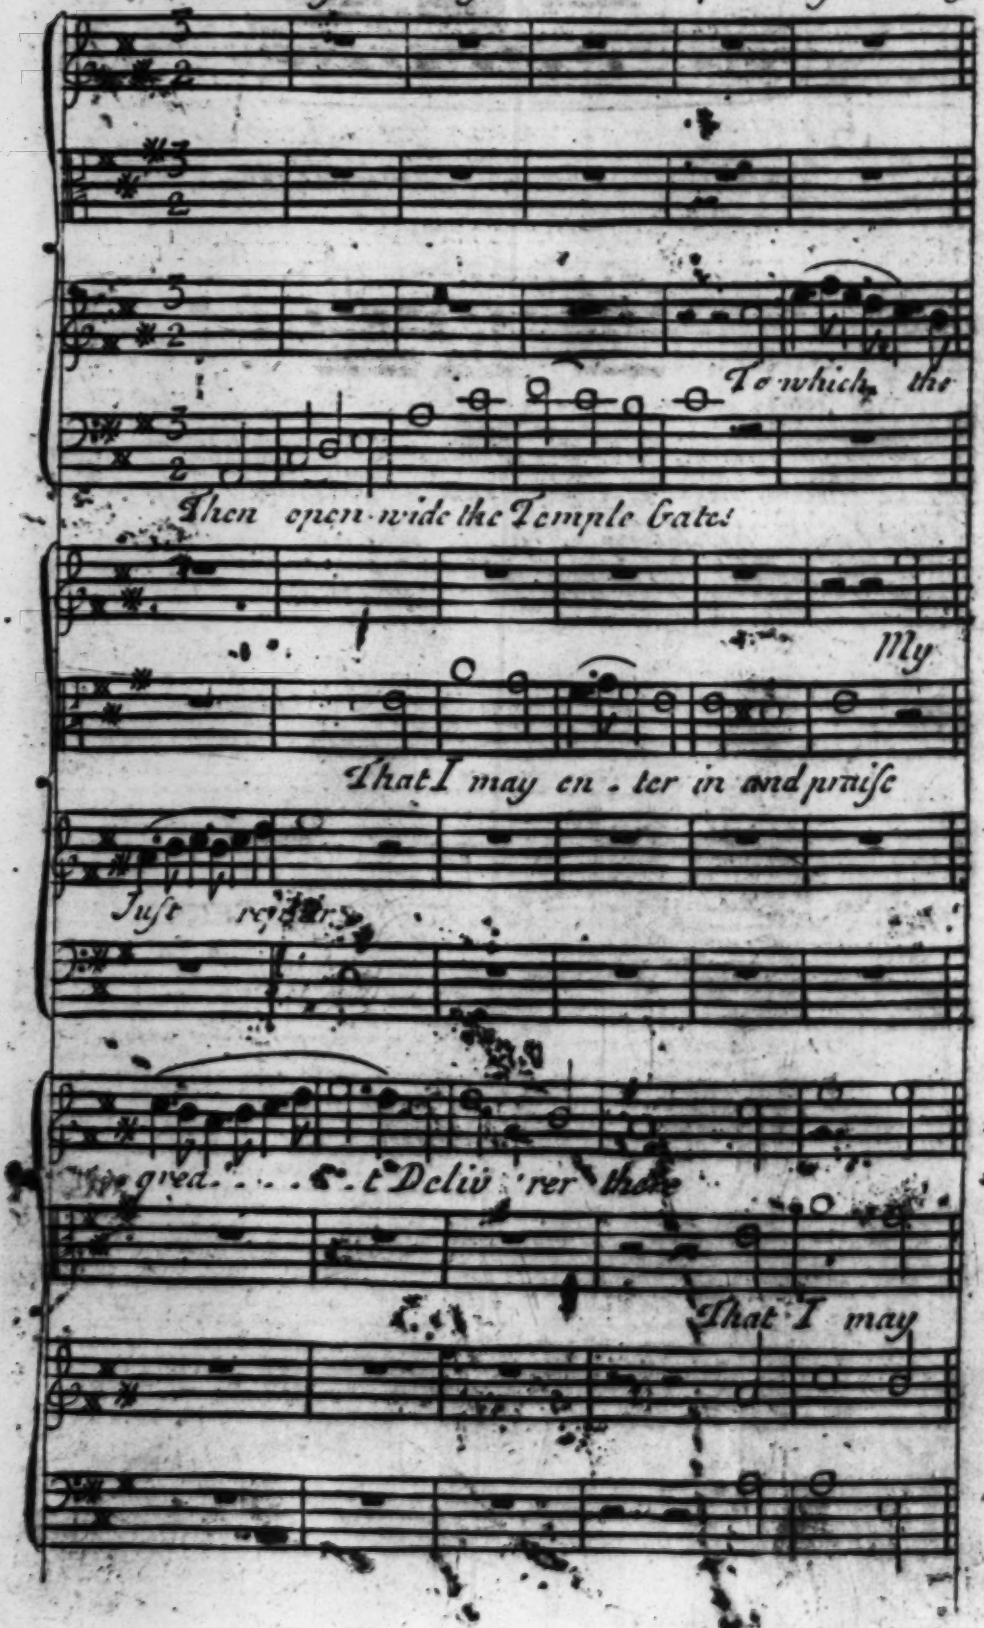
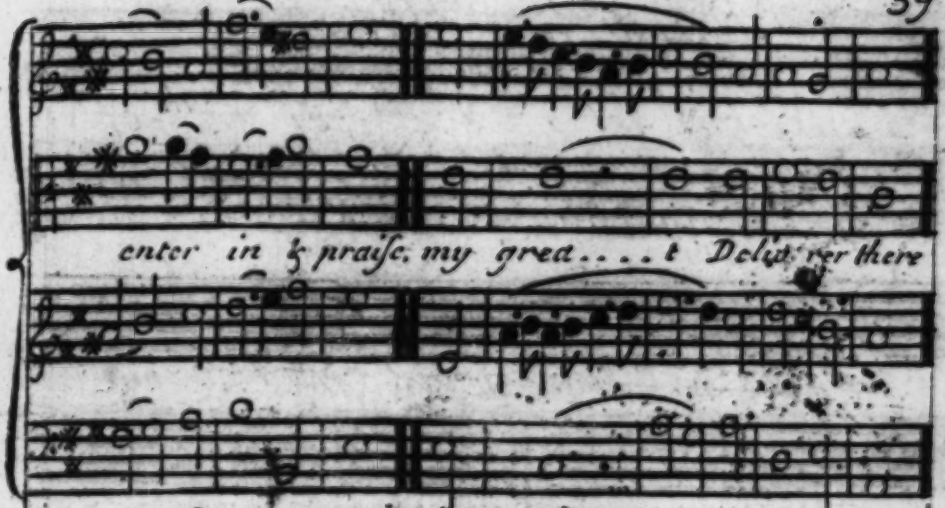
Sandwich Tune. Ps. 118th V. 19th to the End. for Christmas Day.





20.21 Within those Gates of God's Abode.
To which the Righteous press
Since thou hast heard & set me safe.
The holy Name I'll bless.
22.23 That which the Builders once refus'd
Is now the Corner Stone
This is the wond'rous Work of God.
The Work of God alone.
24.25 This Day is God's let all the Land
Exalt their chearful Voice;
Lord we beseech thee save us now;
And make us still rejoice.
26 Him that approaches in God's Name;
Let all th' Assembly bless;
We that belong to God's own House
Have wish'd you good Success.
27 God is the Lord thro' whom we all
Both Light and Comfort find.
Fast to the Altar's Horn with Cords
The chosen Victim bind.
28 Thou art my Lord O God and still,
I'll praise thy holy Name.
Because thou only art my God.
I'll celebrate thy Fame.
29 O then with me give Thanks to God.
Who still does gracious prove
And let the Tribute of our Praise
Be endless as his Love.

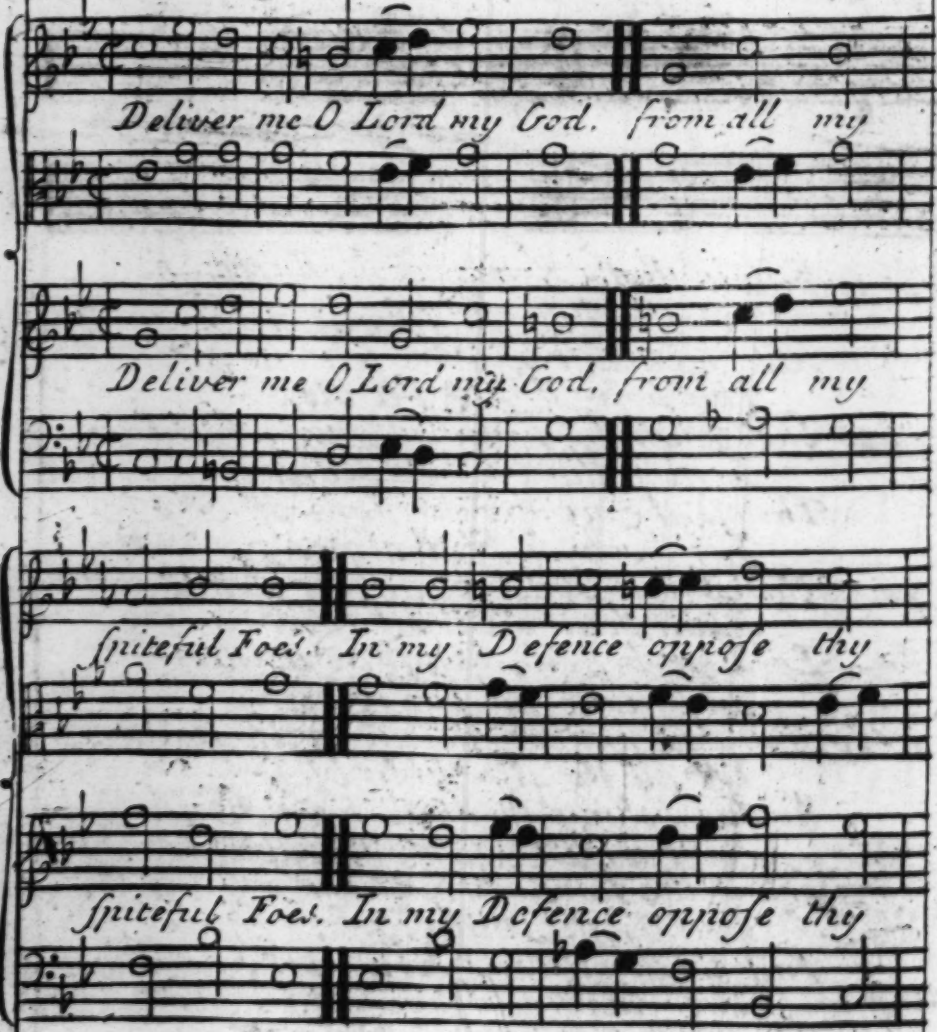
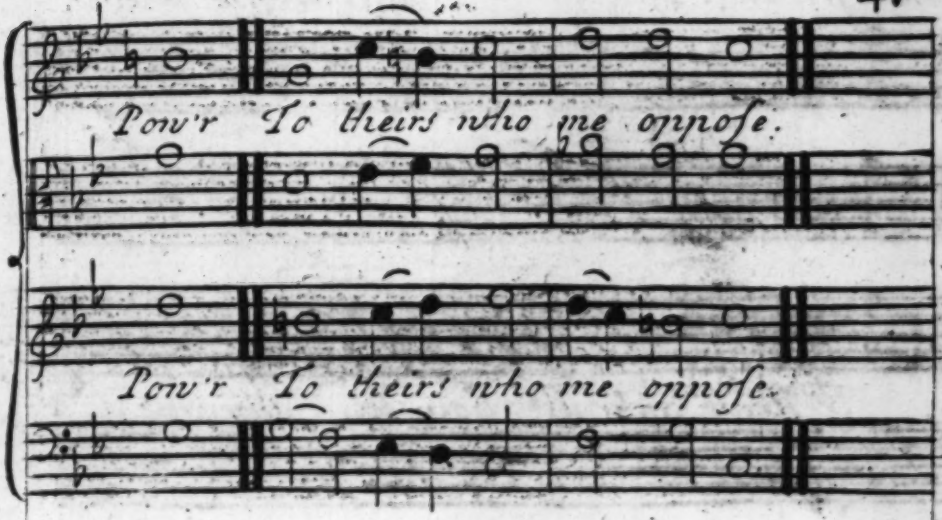
Psalm 59.th Ver: 1. 2. 3. 4.th for 30.th of January. being the Martyrdom of the Blessed King Charles the First.



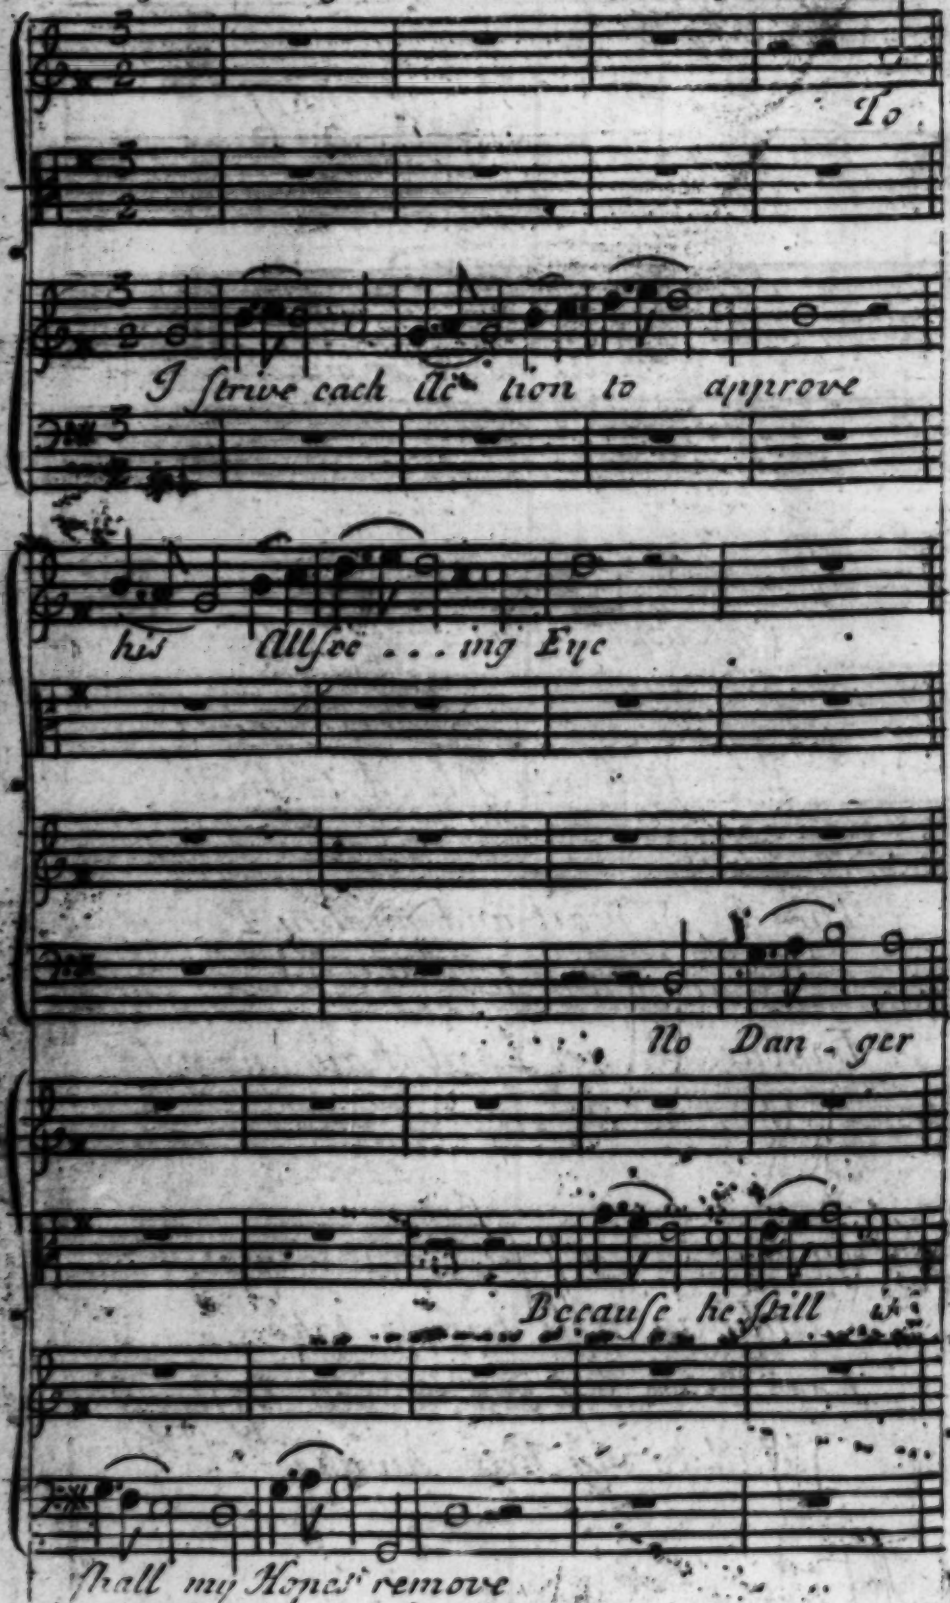


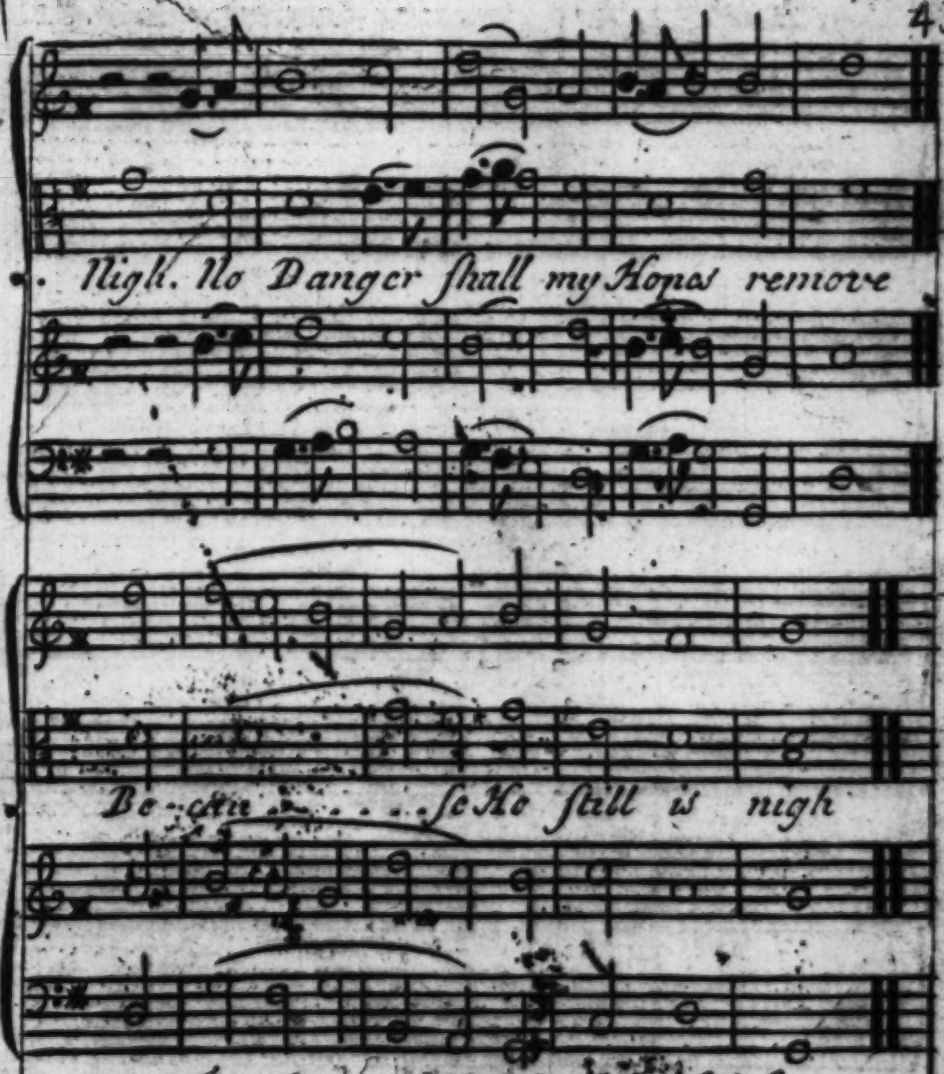
2 Preserve me from a wicked Race.
Who make a Trade of Ill;
Protect me from remorseless Men
Who seek my Blood to spill.

3 They lie in wait and mighty Pow'rs
Against my Life combine
Implacable, yet Lord thou know'st
For no Offence of mine

4 In Haste they run about & watch,
My guiltless Life to take;
Look down O Lord on my Distress
And to my Help awake.

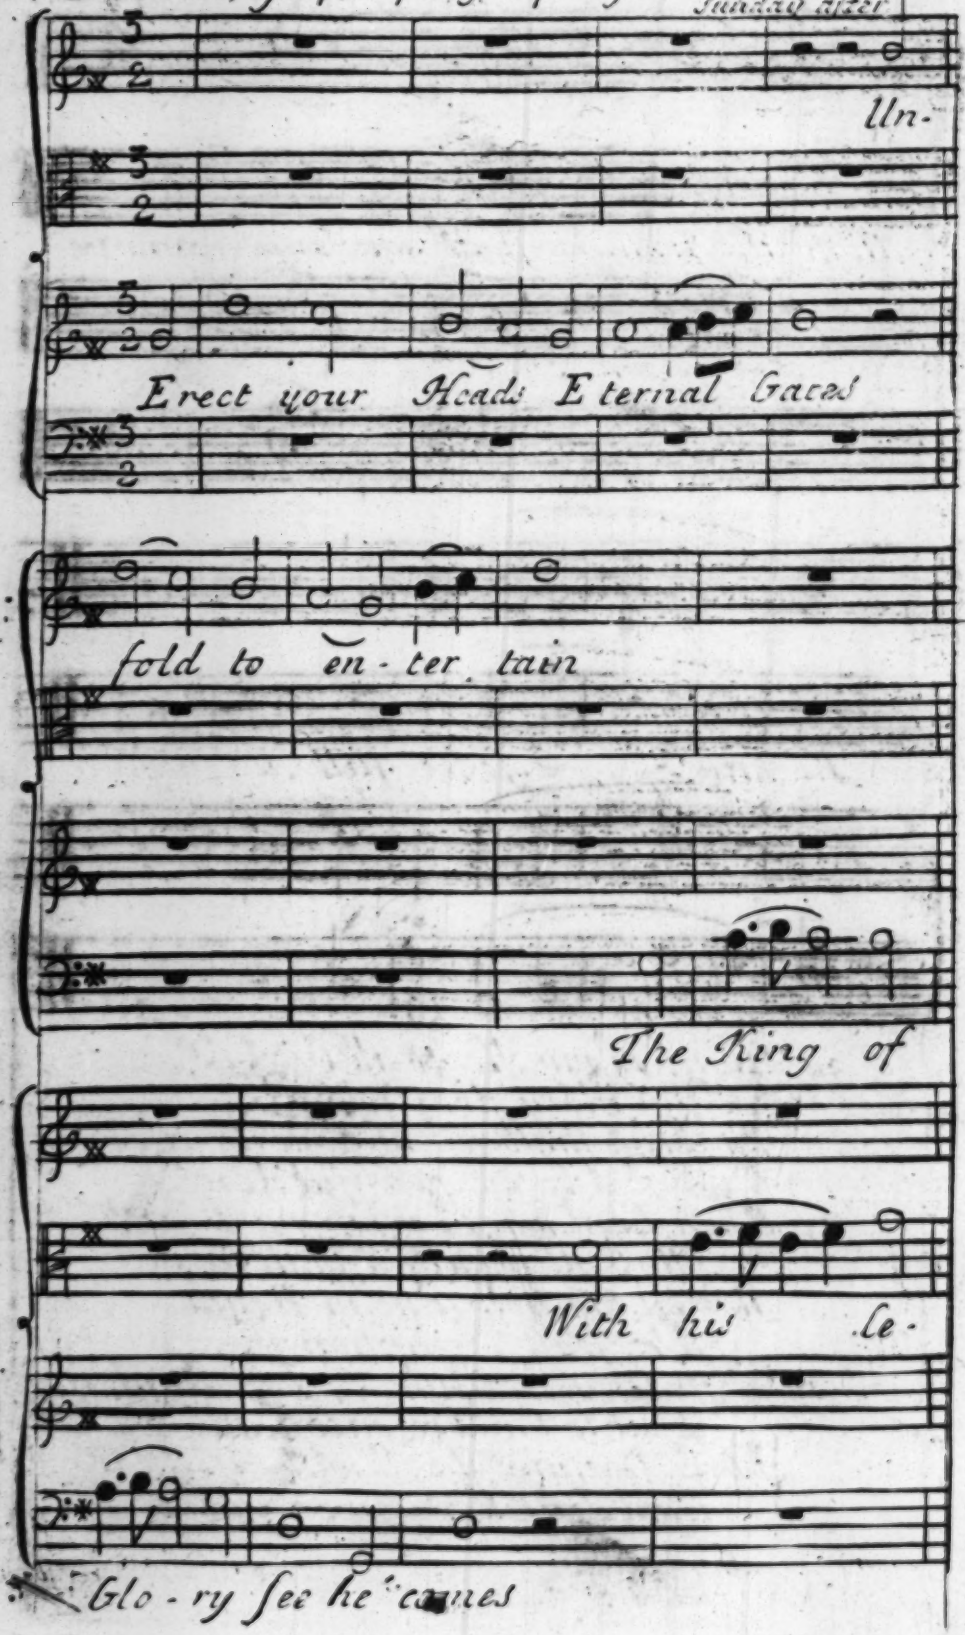
Dorchester Tune Ps 16th V 8. 9 10. 11. for Easter Day.

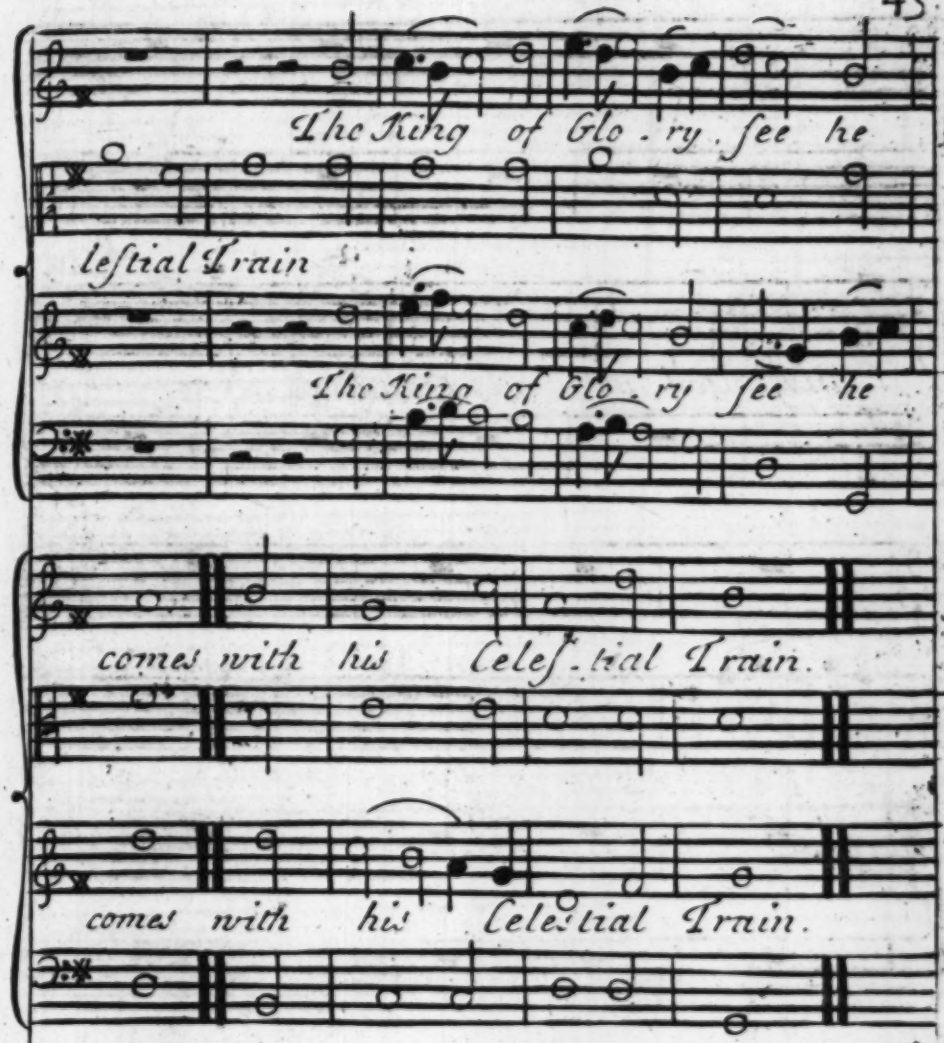




9 Therefore my Heart and Tongue rejoice
My Glory does rejoice
My Flesh shall rest in Hope to rise;
Wak'd by his pow'rful Voice.
10 Thou, Lord, when I resign my Breath
My Soul from Hell shalt free:
Nor let thy Holy One in Death,
The least Corruption see.
11 Thou shalt the Paths of Life display
That to thy Presence lead
Where Pleasures dwell without Allay
And Joys that never fade.

Bere Tune) Ps. 24 Ver 7. 8. 9. 10. for Ascention Day or the Sunday after



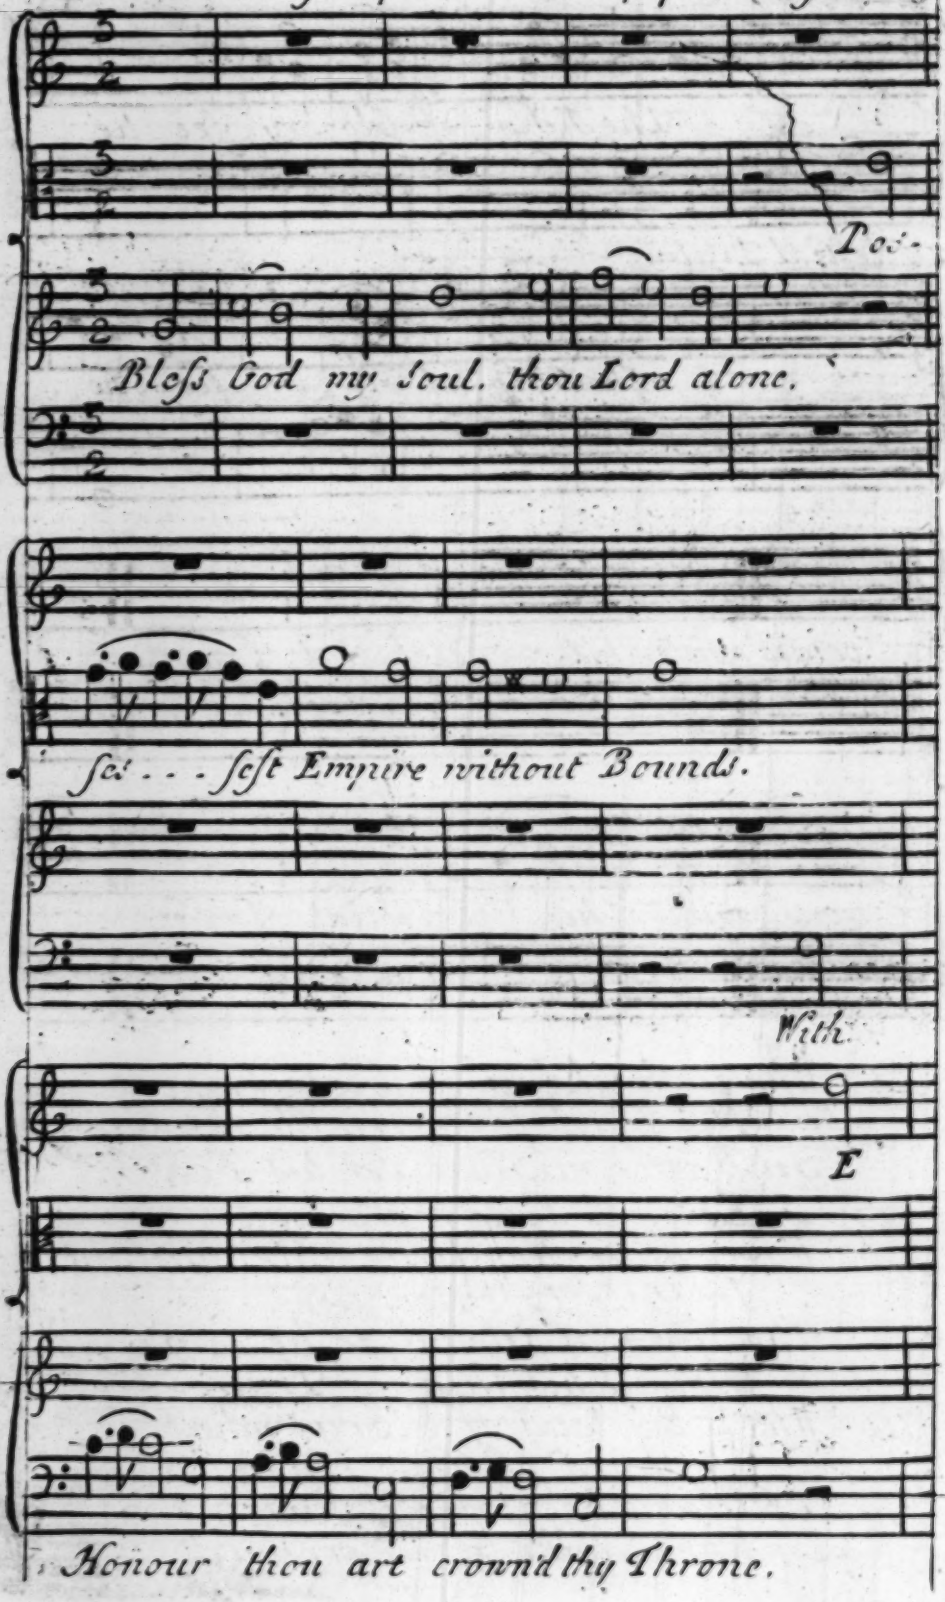


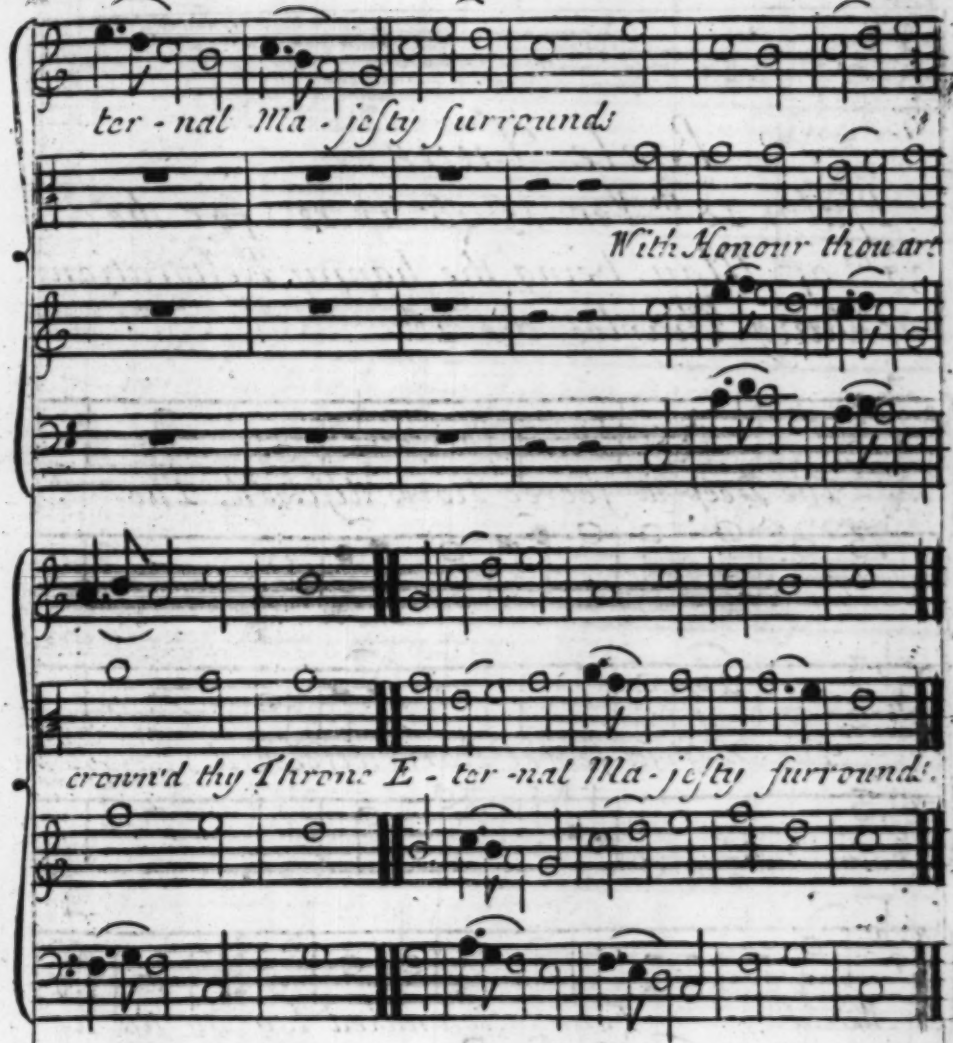
8 Who is the King of Glory? who?
The Lord for Strength renown'd
In Battle mighty o'er his Foes!
Eternal Victor crown'd.

9 Erect your Heads, Ye Gates, unfold.
In State to entertain
The King of Glory: see, he comes
With all his shining Train.

10 Who is the King of Glory? who?
The Lord of Hosts renown'd:
Of Glory he alone is King,
Who is with Glory crown'd.

Litchet Tune. Ps. 104th Ver 1. 2. 3. 4. for Whitsunday





2 With Light thou dost thy self enrobe,
And Glory for a Garment take;
Heav'ns Curtain stretch beyond the Globe,
The Canopy of State to make.

3 God builds on liquid Air, and forms
His Palace Chambers in the Skies
The Clouds his Chariots are, and Storms
The swift wing'd Steeds with which he flies.

4 As bright as Flame, as swift as Wind,
His Ministers Heav'n's Palace fill.
To have their sundry Tasks assign'd,
All proud to serve their Sov'reigns Will.

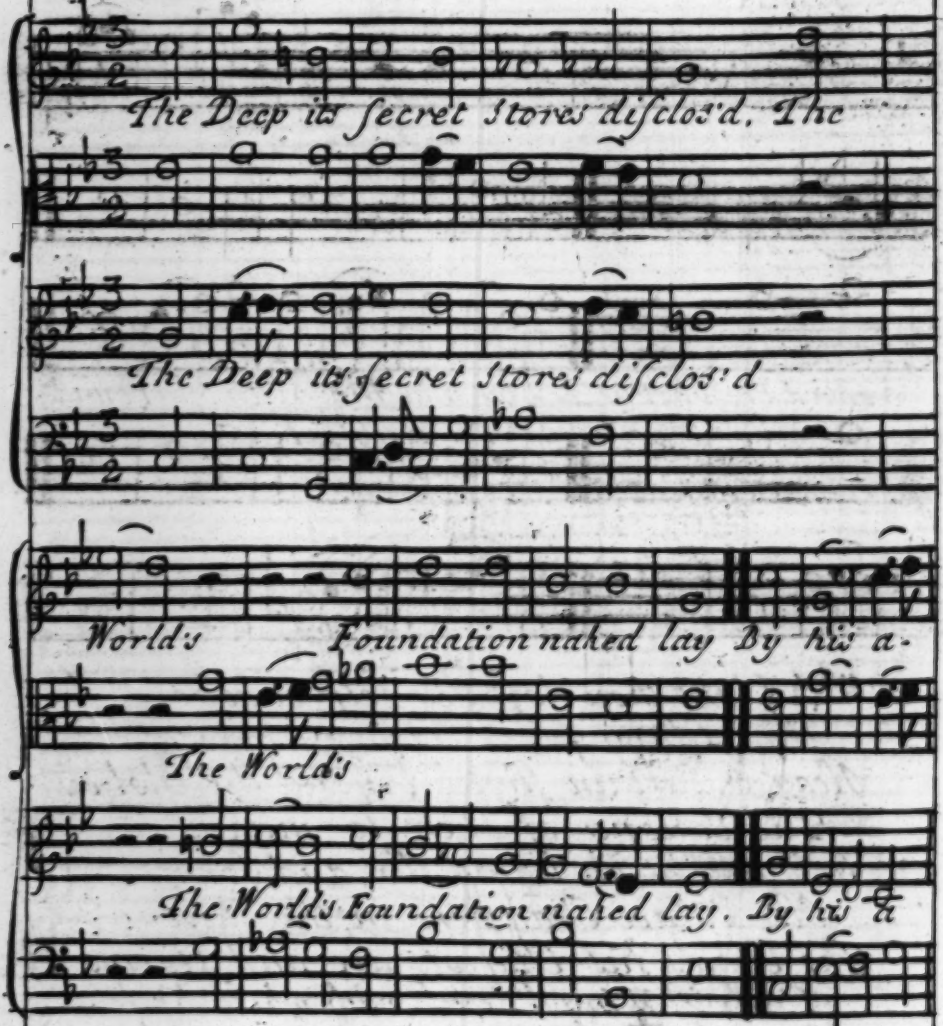
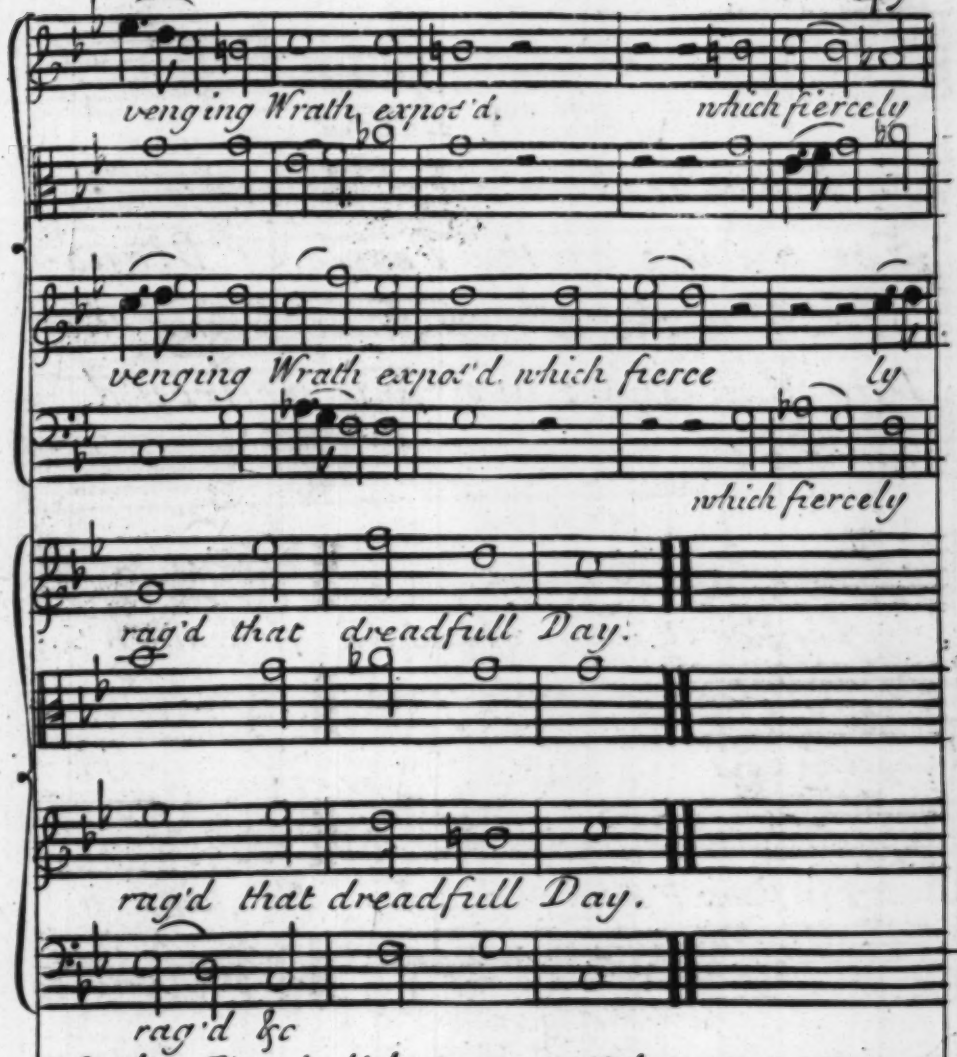
Psalm 18th Ver: 15. 16. 17 18. for the 29th of May. being the happy Restoration of King Charles the 2d





16. The Lord did on my Side engage,
From Heav'n (his Throne) my Cause upheld
And snatch'd me from the furious Rage,
Of threatning Waves that proudly swell.
17 God his resistless Pow'r employ'd,
My strongest Foes Attempts to break;
Who else with Ease had soon destroy'd,
The weak Defence that I could make.
18 Their subtle Rage had near prevail'd,
When I distress'd and friendless lay:
But still when other Succours fail'd,
God was my firm Support and Stay.

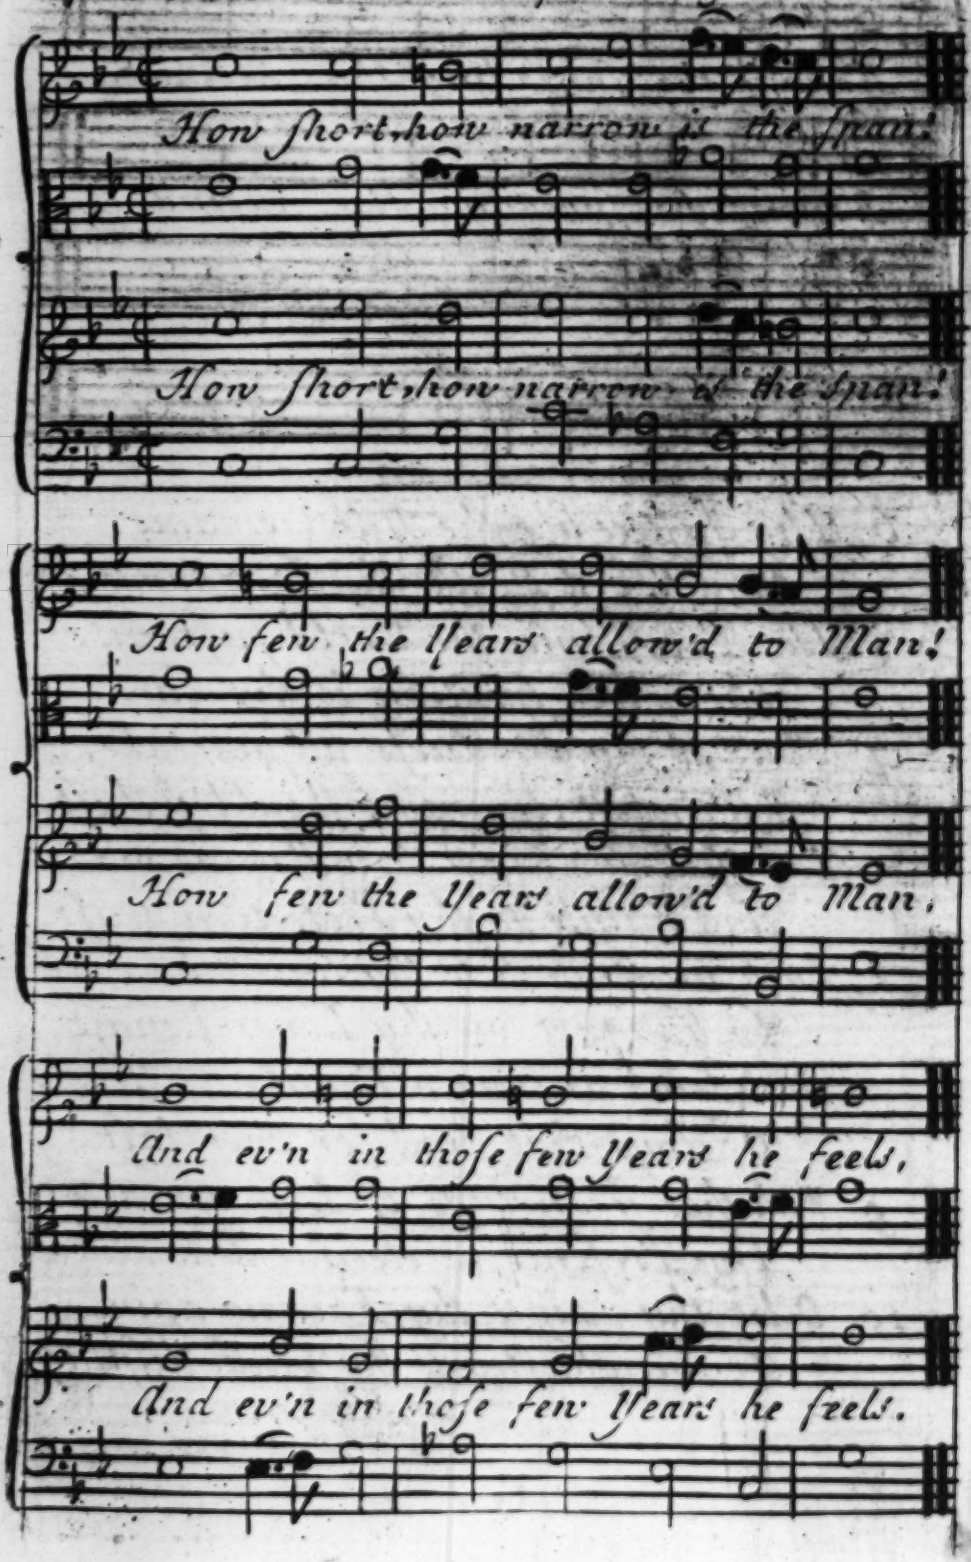
Winterbourne(Tune) Man that is born of a Woman, or Part of the Burial Service Paraphras'd by Mr. Price.



2 As springs the Flow'r in some gay Mead.
Then sudden hangs its drooping Head.
So does our boasted Strength decay,
And like the Shadow fly away.

3 For ev'ry Moment that we breathe,
'Tis hast'ning to ỹ Gates of Death.
And who can needful Help afford,
In that sad Hour, but thou O Lord?

4 Conscious of Guilt to thee we cry,
And raise ỹ Hand & lift the Eye.

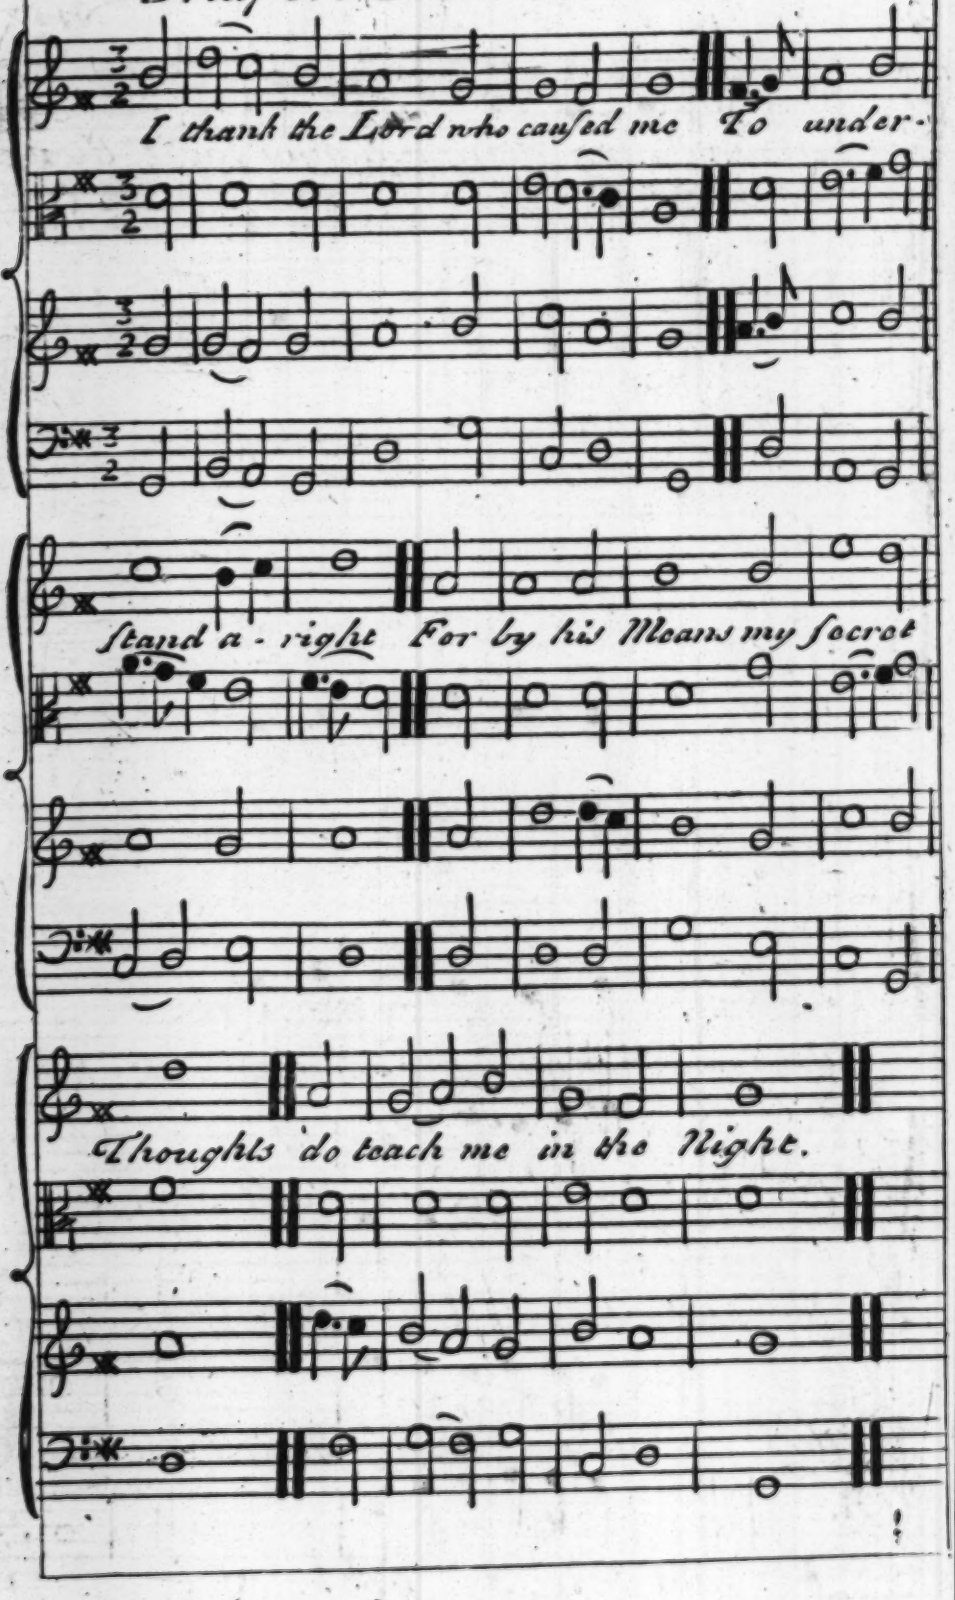
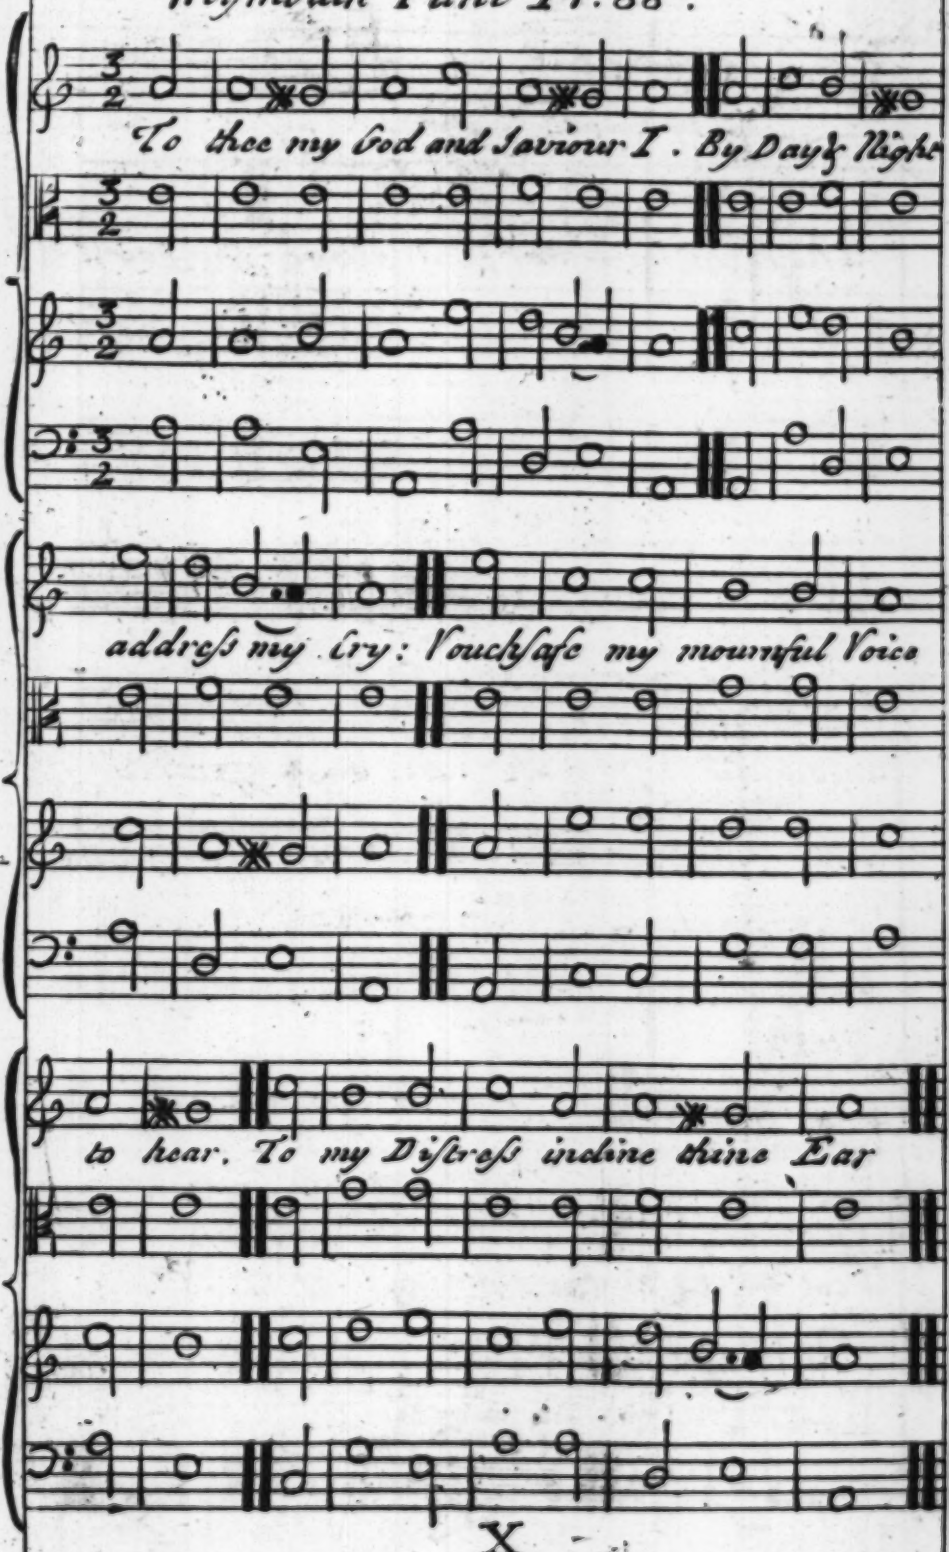
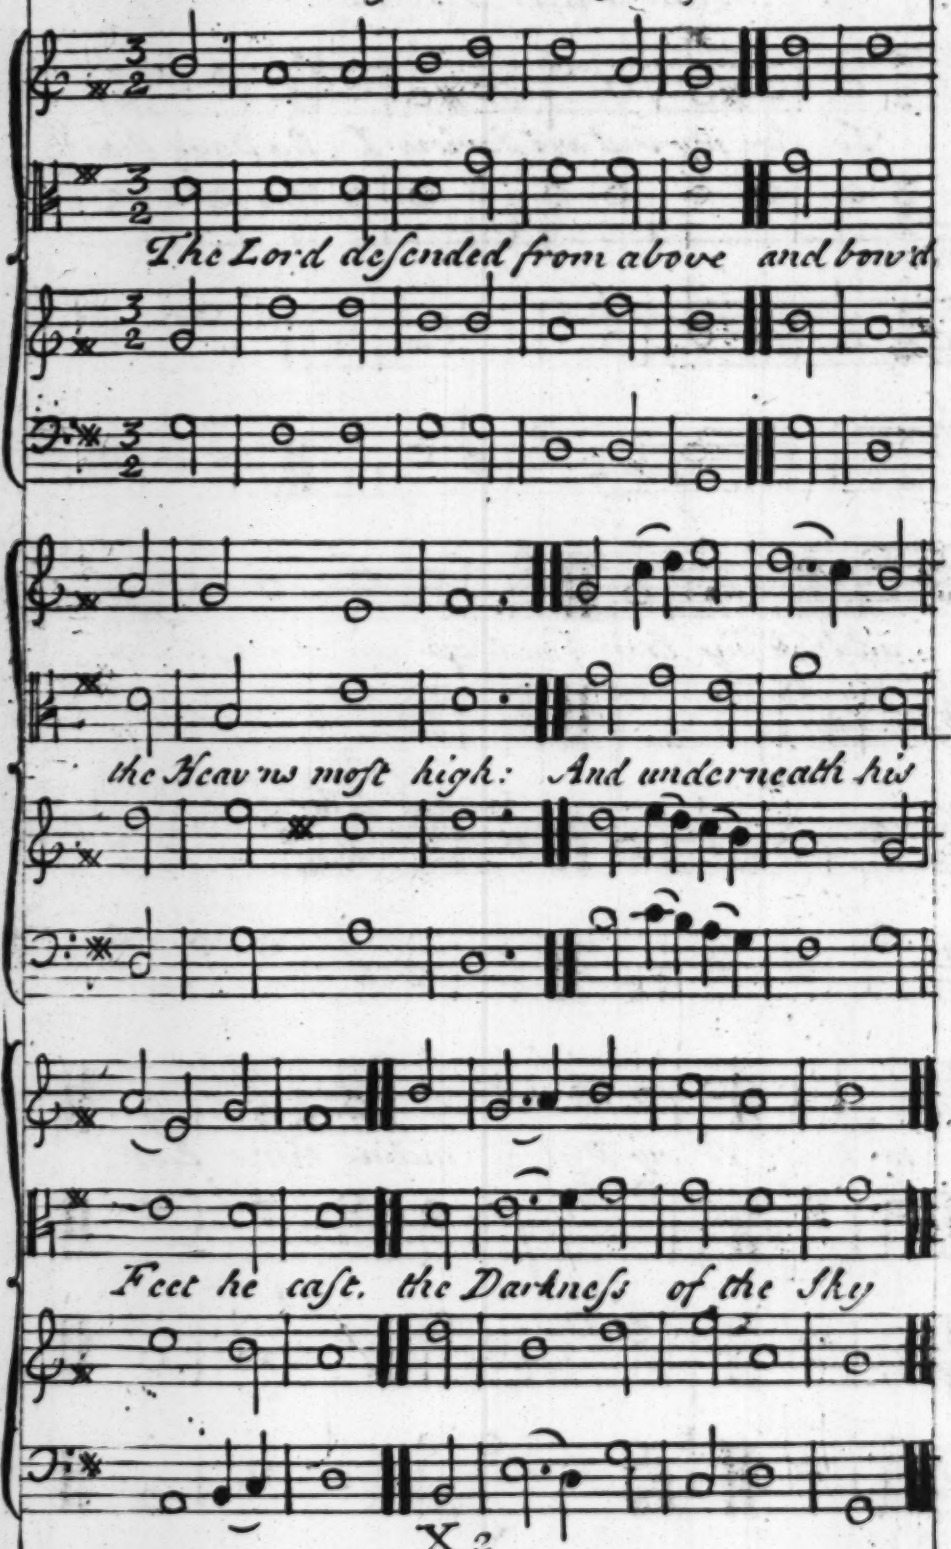
Bridport Tune Ps. 16th



Weymouth Tune Pl. 38th.



From Tune. Ps 18th Ver 9th &c



10. On Cherubs and on Cherubims,
Full Royally he rode:
And on the Wings of mighty Wind,
came flying all abroad.

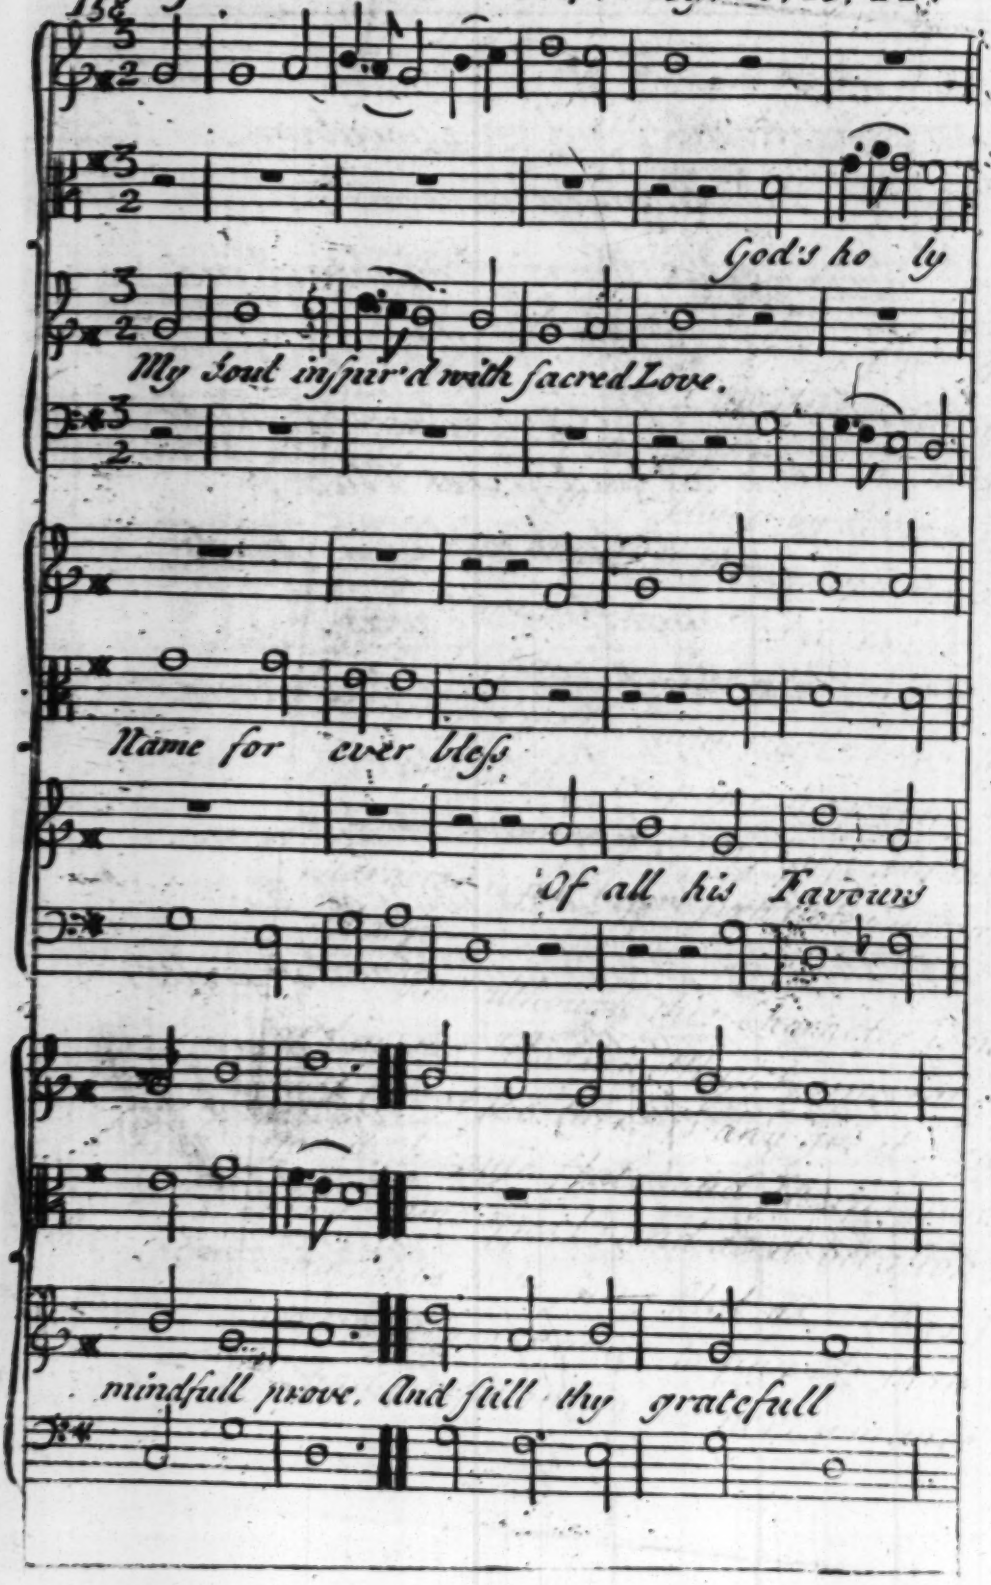
11. And like a Den most dark he made,
His hid and secret Place:
With Waters black and airy Clouds,
Encompassed he was.

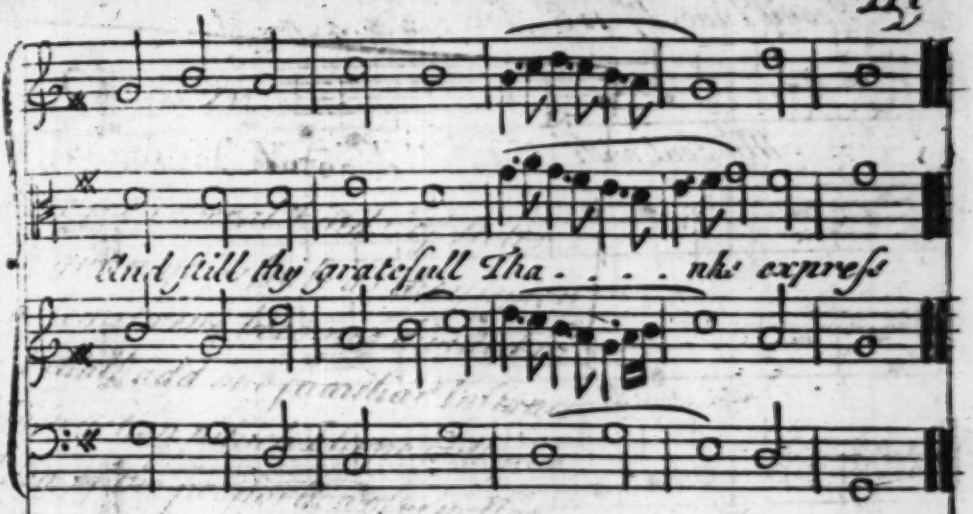
12 At his bright Presence did thick Clouds
In Haste away retire;
And in the stead thereof did come,
Hail-stones, and Coals of Fire.

13 The fiery Darts and Thunder Bolts,
Disperse them here and there,
And with his frequent Lightnings he
Doth put them in great Fear.

14 When thou O Lord with great Rebuke,
Thy Anger dost declare:
The Springs and the Foundations of
The World discover'd are.

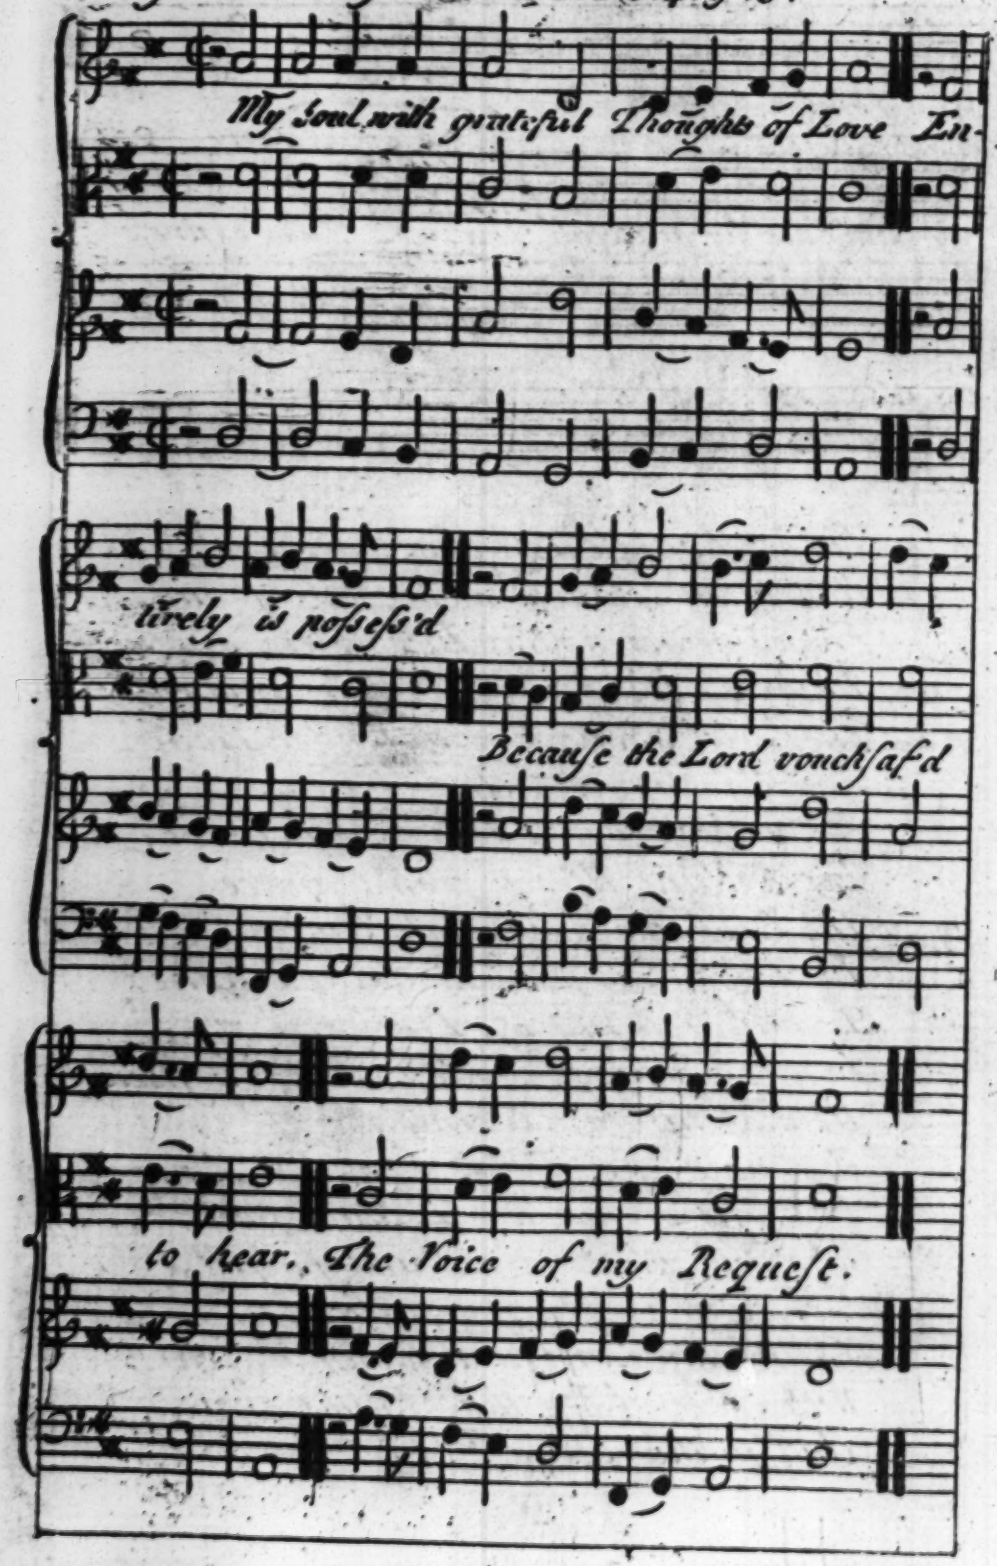
Ps 103.d ver 1.2.3.4.8.19.20.21.22.





3. 4 Tis he that all thy Sins forgives,
And after Sickness makes thee sound,
From Danger he thy Life retrieves,
By him with Grace & Mercy crown'd.
8 The Lord abounds with tender Love,
And Unexampled Acts of Grace:
His wakend Wrath doth slowly move,
His willing Mercy flows apace.
19. 20 The Lord, the universal King,
In Heav'n has fixt his lofty Throne;
To him ye Angels, Praises sing,
In whose great Strength his Pow'r is shewn.
21 Ye that his just Commands obey,
And hear and do his sacred Will:
Ye Hosts of his this Tribute pay,
Who still what he ordains fulfill.
22 Let ev'ry Creature jointly bless
The mighty Lord: and thou, my Heart,
With grateful Joy thy Thanks express,
And in this Consort bear thy Part.

Yeovil Tune. Ps. 116. Ver: 1. 2. 3. 4. 5. 6.



My Soul with grateful Thoughts of Love En-
tirely is possess'd
Because the Lord vouchsaf'd
to hear. The Voice of my Request.

2 Since he has now his Ear inclin'd,
I never will despair;
But still in all the Straits of Life,
To him address my Pray'r.

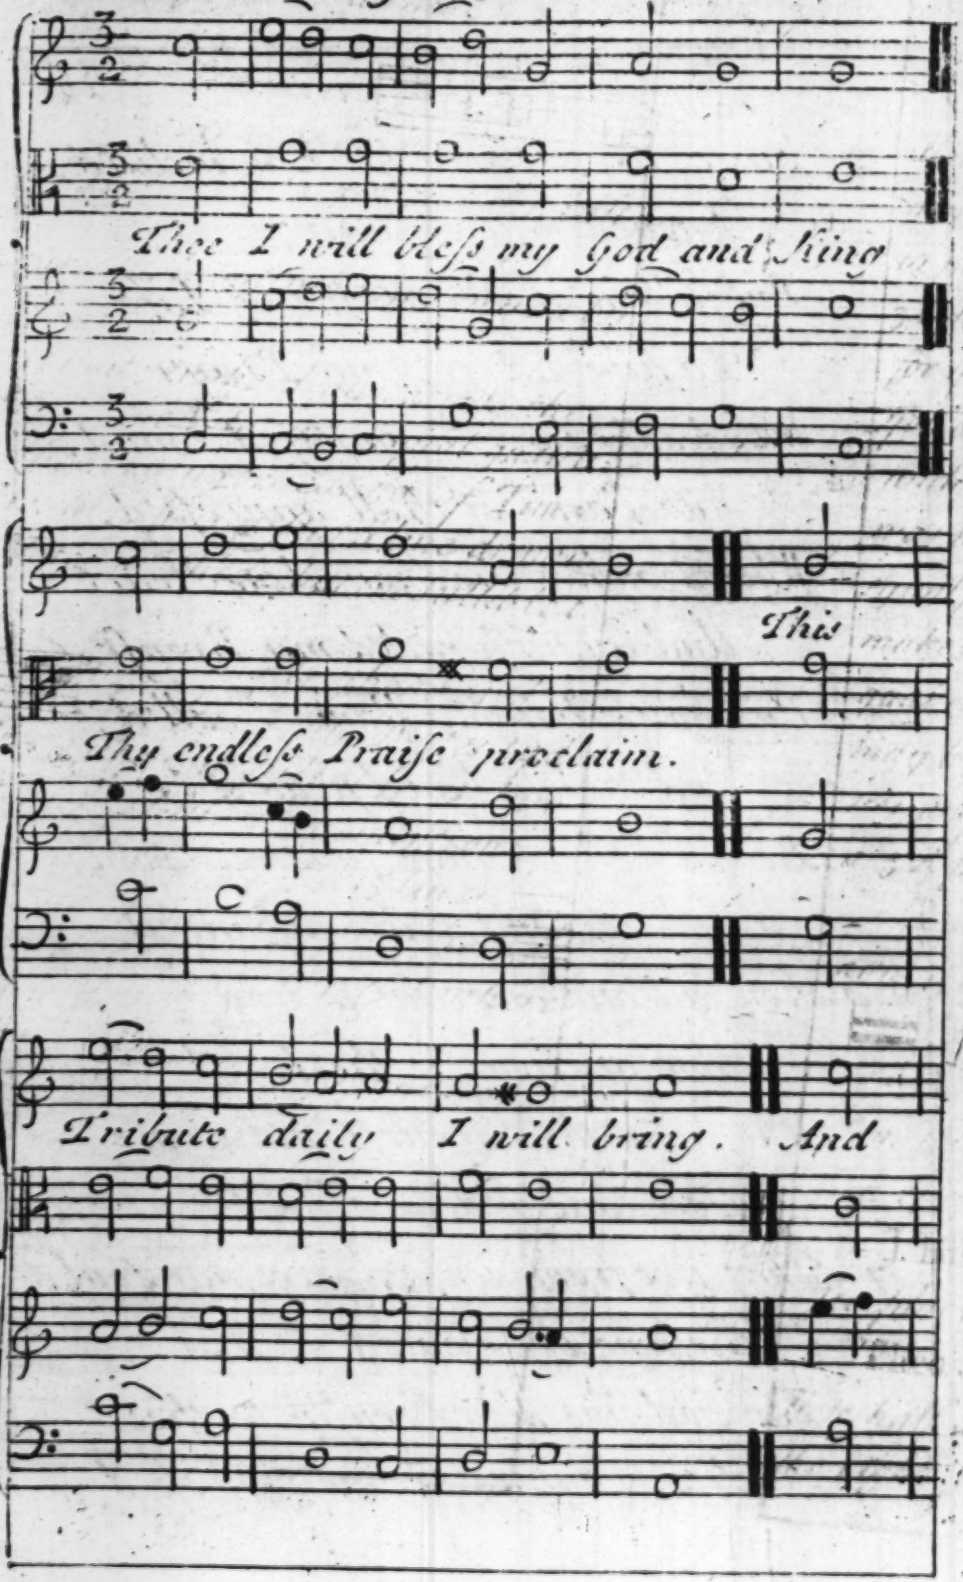
3 With deadly Sorrow compass'd round,
With Pains of Hell oppress'd,
When Troubles seiz'd my aking Heart,
And Anguish rack'd my Breast.

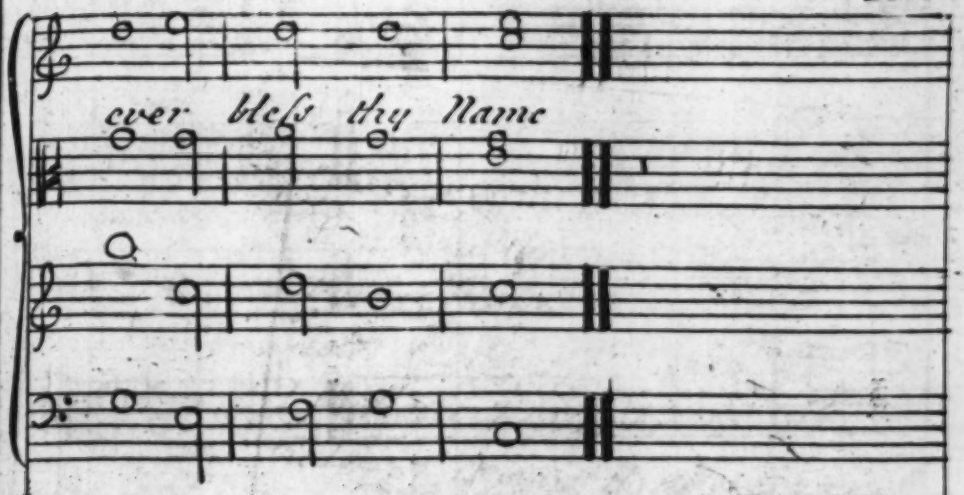
4 On God's Almighty Name I call'd
And this to him I pray'd:
Lord I beseech thee save my Soul.
With Sorrows quite dismay'd.

5. 6. How just and merciful is God,
How gracious is the Lord!
Who saves the harmless, and to me,
Does timely Help afford.

7 Then, free from pensive Cares, my Soul,
Resume thy wonted Rest;
For God has wond'rously to thee,
His bountrous Love express'd.

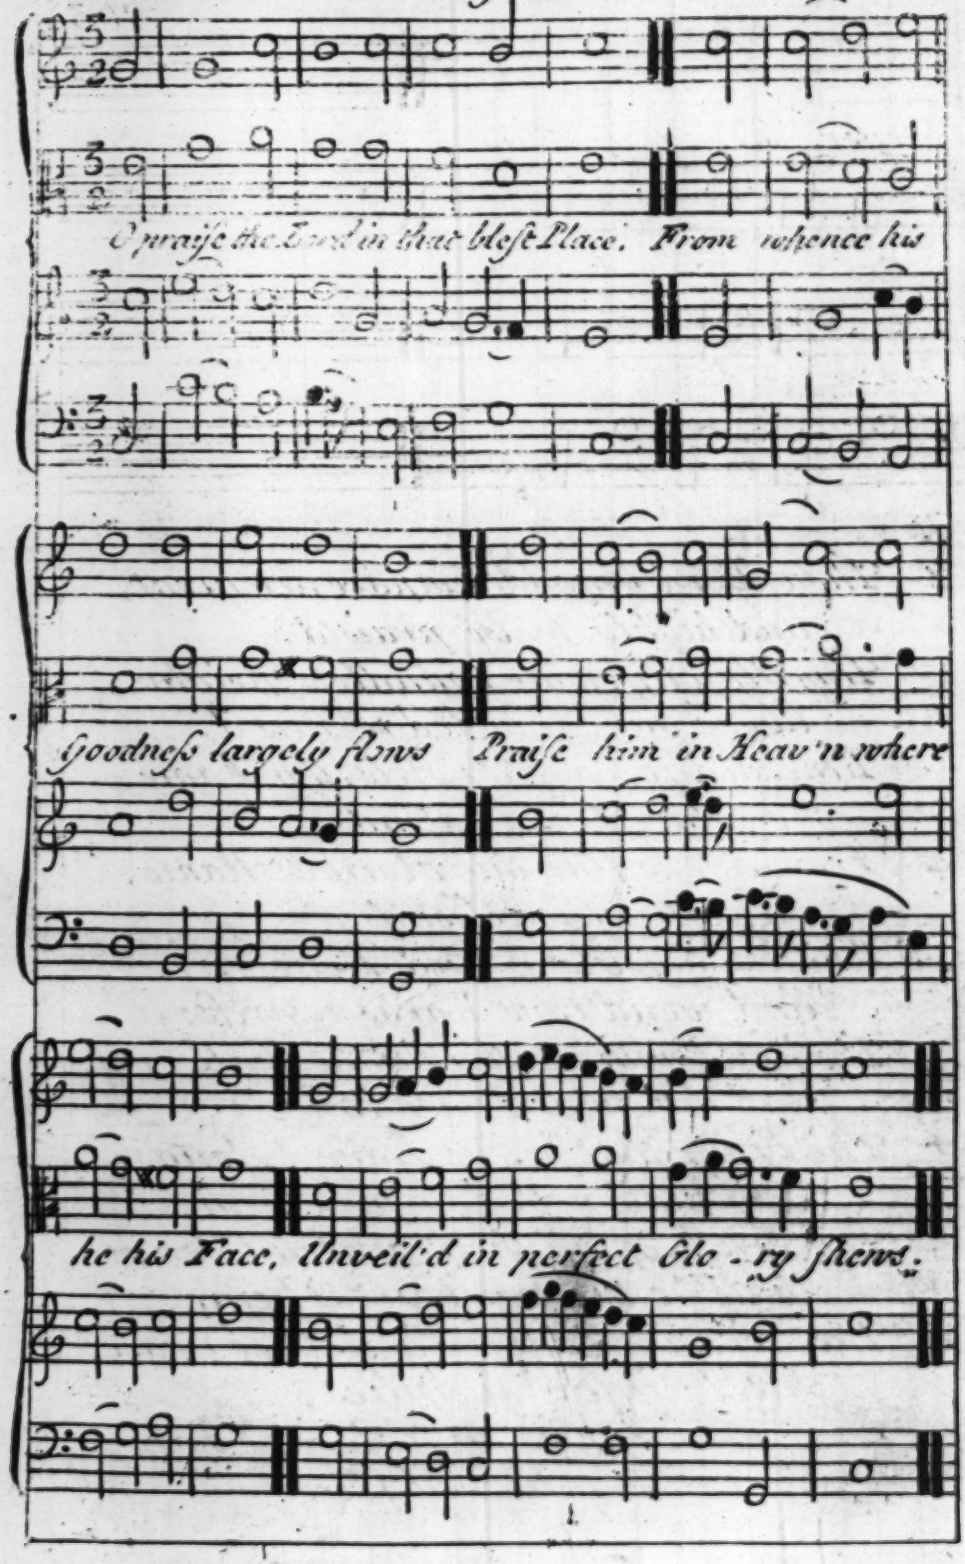
Taunton Tune. Ps. 145th





3 Thou, Lord beyond compare art great,
And highly to be prais'd;
Thy Majeſty, with boundleſs Height,
Above our Knowledge rais'd.
Renown'd for mighty Acts, thy Fame,
To future Times extends;
4 From Age to Age thy glorious Name,
Succeſſively deſcends.
5. 6. Whilſt I thy Glory and Renown,
And wond'rous Works expreſs;
The World with me thy Might ſhall own,
And thy great Pow'r confeſs.
7 The Praiſe that to thy Love belongs,
They ſhall with Joy proclaim;
Thy Truth, of all their grateful Songs,
Shall be the conſtant Theme.
8. The Lord is good: freſh Acts of Grace,
His Pity ſtill ſupplies;
His Anger moves with ſloweſt Pace,
His willing Mercy flies.

Sherborne Tune Ps. 150th



2 Praise him for all the mighty Acts,
Which he in our Behalf has done;
His Kindness this Return exacts,
With which our Praise should equal run.
3 Let the shrill Trumpet's warlike Voice
Make Rocks & Hills his Praise rebound:
Praise him with Harp's melodious Noise,
And gentle Psaltry's Silver Sound.
4 Let Virgin Troops soft Timbrels bring,
And some with graceful Motion dance;
Let Instruments of various Strings,
With Organs join'd his Praise advance.
5 Let them who joyful Hymns compose,
To Cymbals set their Songs of Praise.
Cymbals of common Use, and those,
That loudly sound on solemn Days.
6 Let all that vital Breath enjoy
The Breath he does to them afford,
In just Returns of Praise employ,
Let ev'ry Creature praise the Lord.
